TRE Framelock (Three Rapid Exchange). 4" closed. 2.88" Bohler M390 stainless drop point blade with removable flipper. Hardened to 60-61 HRC. This knife is equipped with a patented system that allows the user to carry the knife with or without the flipper feature.

IKBS ball-bearing pivot system to improve the knife opening and closing and give the T.R.E. knife an ultra-fast opening action. Lanyard hole. Reversible titanium Pocket clip. Includes a keyring with both Torx T6 and Torx T8 bits for the positioning or the removal of the flipper, thumb stud and the Pocket clip. Packaged in wooden box that holds all. The user may choose three ways to equip his knife: a simple basic version without the flipper and pin on the blade, a thumb stud version with the pin on the blade or adding the flipper for a quick opening action. Designed by Molletta Pensato Michele.
