RESCUE TAPE
STRETCH, WRAP, & GET RESCUED™

Made in USA

RT01019 Rescue Tape Premium. Rescue Tape is a self-fusing silicone repair product with infinite uses. First used by the U.S. Military and now seen at consumer and industrial trade shows across America, this is the most versatile and easy-to-use emergency repair product available. Incredible 950 PSI tensile strength. Insulates 8,000 volts per layer. Withstands 500°F of heat and remains flexible to -85°F (-60°C). Creates a permanent, airtight and watertight seal in seconds! Resists fuels, oils, acids, solvents, salt water, road salt and UV rays. Never gets gummy or sticky like electrical or duct tape - No messy cleanup! Has an unbelievably long shelf life! Works great for: emergency hose repair, pipe and plumbing repair, electrical insulation, corrosion protection, sealing connections, marking lines and chain, rigging applications, wiring harnesses, waterproofing, whipping rope ends, tool handle and grips, emergency O-rings and much, much more! Rescue Tape is the Ultimate Multi-Purpose Self-Fusing Repair Tape! Stretch, Wrap & Get Rescued. Each roll measures 1" wide x 12' long x 20mil. Hang packaged..... **Retail \$13.50**

RTF4R with packaging

RTF4R F4 Mil-Spec Silicone Tape.

hood detail

Made in U.K.

SN92860 Snugpak Stratosphere.

Snugpak had one thing on their mind during the Stratosphere design process... simplicity! Design a shelter for a single user to stay 100% dry, breathable, bug free, and keep weight and size to an absolute minimum. The end product is a waterproof/breathable one-person shelter that utilizes lightweight screw-lock aluminum poles to create a self-supporting canopy around the head and shoulders to increase breathability and movement while giving complete protection from the elements. Uses range from the serious weekend warrior, hunting outfitters, deep forest management, extreme backpacking, survival situations, and special operations. Fully zipped with roll away mosquito net in hood front and meshed ventilation section in hood rear. Features include: Steel "L" shaped anchors. Taped Seams. Full length side zip. Fabric: Top; 40D Nylon Ripstop, Waterproof and Moisture Permeable. Bottom; 70D Nylon Taffeta with PU Coating. Dimensions: 90" x 37" x 42", Pack Size: 14" x 5", Weight: 46oz (Including Poles, Pegs and Compression Sack). **Retail \$248.95**

SN92802

**Softie Elite 1.**

Temperature Rating: 45°F to 36°F (7°C to 2°C), The Elite series caters to a wide variety of users ranging from the serious weekend warrior, hunting outfitters, deep forest management, extreme backpacking, and special operations. Snugpak has created a bag for the professional user by introducing the Expander Panel System, reinforced foot lining, mesh chest pocket, and the decision to utilize their established and proven Softie Insulation. EPS is a unique feature that has two uses: (1) Allows bag to be tightened or loosened for instant interior bag size adjustment; Perfect for when additional layers of clothing are needed to s-t-r-e-t-c-h the bags designed performance and when removing BDU's and body armor "are not an option" and (2) Managing the bags interior performance; As the temperature drops simply tighten the EPS and it will drastically increase performance by multiplying its ability to contain body heat. Too warm, just loosen the EPS and air flow will increase providing a cooling effect. Reinforced foot lining allows user to wear a wide variety of footwear without causing damage to liner. Again, a must-have feature when removing combat boots is not an option. Handy mesh chest pocket is perfect for keeping need-to-have items such as a flashlight or glasses secure and easy to find. Additional features include: Paratex Light shell, Paratex Micro liner, Snugfit hood, Anti-Snap two-way zipper, hanging dry tabs, and a compression stuff sack. All Elite Series bags are 86" in length and 65" at chest.

SN92248

Snugpak Jungle Blanket.

Measures 76"L x 64"W. A warm, lightweight, less bulky alternative to a traditional blanket or poncho liner used by many people. Made of Travelsoft Insulation, designed for exceptional performance using ultra lightweight, high loft fibres that work superbly even after being compressed into a small, compact size for lightweight traveling. Features a Paratex Antibacterial and anti-microbial treatment. Windproof and water resistant. Stores in a nylon compression sack with drawstring closure. The Jungle Blanket will become your best friend when the temperature drops!

TPFSPB01 Fire Starter Piggy Back.

Consists of 3 rods which are 3" overall including handle. Rods are 2" overall. Two silver rods are magnesium. When ignited, this material will burn quickly at a temperature of +5000 degrees. Use a knife to shave a small amount of magnesium into a pile (approximately the size of a nickel) immediately next to or on top of the tinder. The dark color rod is Ferrocium. When scraped with a knife this rod will produce a very hot spark (+1000 degrees). Draw the knife edge at a right angle firmly down the entire length of the ferrocium rod to ignite the pile of magnesium shavings on the tinder. All 3 rods are pressed into a 3/4" black aircraft aluminum machined barrel. Includes 2 mounting screws to attach to most Kydex sheaths. **Retail \$29.95**

**TPTFSK38****Fire Starter Emergency Kit.**

Starter features three rods (1 Ferrocium-Super Flint Starter and 2-Magnesium Hot Rods) all pressed into aircraft aluminum barrel. Also includes P-38 can opener and a TOPS survival whistle with neck chain. **Retail \$29.95**
