

PRESENTS THE WORK AND SALE OF FUSED GLASS ARTIST STELLA SCHLOSS

We extend a warm invitation to all art enthusiasts, collectors, and those with a curiosity for the extraordinary to join us in celebrating the incredible talent of this month's artist, Stella Schloss

Stella Schloss has been creating art for over 30 years. Originally a metalsmith focused on jewelry, Stella took her first fused glass class in the early 1990s. Exposure to experts near and far cultivated a strong interest in working with warm glass. Recently retired from the healthcare field, Stella is focusing on creative ways to bridge her love of fused glass and metal together. She is also an instructor at the Glass Arts Collective, sharing what she has learned with others.

Stella's art is on exhibit for the entire month of October during regular studio hours.
