Volume 1 Issue 4

## October Message From CEO

In the days and times in which we live, there are many new and exciting things happening amidst pain and sorrow due to the COVID-19 pandemic. Over 200,000 people lost their lives, and over 40 million people found themselves without a job. With so much loss there is sorrow, deep sorrow. We at Prosperity Pathways mourn with this sorrow.

We also come with solutions.

Just in the last month, we were gifted with guaranteed employment positions from company executives. Basically, if you meet the job requirements, the job is yours. We have placed several people in these positions, and they are well on their way to being financially sound. That is what fuels our energy --- helping people be employed so they can take care of themselves and their families.

What is also taking place is the job-ready training opportunities that have also just happened in the last month. When we say "job-ready" that is exactly what happens when graduating from the training program. In the case of working in the media industry, we are privileged with the enrollment and admissions responsibility for the training that takes place in media. We are also aware of training computer coding for those persons who might want to work in the computer technology industry as a computer coder. In addition, we are connected to truck driving schools that are positioned to train persons to get their Commercial Driver's License (CDL) after which will work in the transportation industry.

So, in essence, Prosperity Pathways is skilling, re-skilling, and up-skilling its clients! We are in a wonderful position to help people recover from the loss of their employment due to COVID-19, or for any other reason with guaranteed employment and job-ready training.

Whatever your situation, we are here to help.

- AnnaMaria Bliven

## Guaranteed Employment

Meet Requirements? You're Instantly Hired!

We have been and continue to partner with companies to offer guaranteed employment
