Hi Beth,

I agree. And, the building and Maintenance fund is there for these exact type of projects. We'll have to have an agenda item to move the funds from that account on the balance sheet to building repairs on the budget, but it's definitely the most realistic bid.

Good work. I hope you're feeling better.

Thanks,  
Angela

Hi Angela,

Can I please get your guidance on this? After many phone calls and chasing of contractors, we finally have 2 bids for window replacements.

In my opinion, I feel we should go with Eureka Glass and only get the north and south walls done as those are the worst - for \$13,155.87. We have our grant from PacifiCorp of \$3,500 to help with this. I think we should pull the rest from our buildings and maintenance revenue line.

I know we don't like pulling from revenue lines. But at least we have the grant to assist. And the windows are pretty bad - some are leaking into the library and others are cracked so badly, I am concerned they will worsen.

Also - once we get these replaced - it will only SAVE us money on heating costs moving forward.

How do you feel about this? Do you agree/disagree? Should I agendize this?

Thank you.

**Beth Austen**
