I grew up in beautiful Crescent City and the library has a very special place in my heart and in my childhood experiences as well as now in my adult life as a mother myself. As a young girl, my twin sister and I had a special tradition with our mother where we would pack up a lunch, get on our bikes and ride down to Glen's Bakery to get a donut, go spend time at the library and check out books then drop off a lunch to our dad that worked full time to provide for us. The excitement of new books and treasures we may find each time that we could bring home and read together as a family was so precious and would drive us to get up bright and early for these family adventures. Now fast forward to my adult life coming back to the community and from the role of being a Mama myself to my young daughter has brought a whole new experience of the library that has been just as meaningful. My daughter is now 3 1/2 years old and we have been going to the library since she was an infant. I can say that the staff there have made the difference; there is such a warm welcoming energy, passion and true care for the work there. We have gone to many events and I am so impressed with the creativity that goes behind all that the library offers especially during these COVID times. We always look forward to checking out books and having peaceful, quality time reading together that promotes such creativity, language skills and overall development. We want you to know that we love and appreciate the library and you are truly making a positive difference in our community.

Thank you,
