. Grape Varieties	Blaufrankisch
Closure	Screw cap
Cellar Potential :	3 years
Residual Sugar :	0 g/l
Alcohol :	12 %
Bottle Size :	75 cl
Case Size	6
Vegan :	Yes
Vegetarian :	Yes

Grower

Péter Benedek and his family combine four generations of tradition with modern, gentle cellar work, choosing only grape varieties that suit the Mátra and farming their 10 ha estate “in harmony with nature.

Region

The Mátra wine region, located in northern Hungary at the foothills of the Mátra Mountains, spans around 7,800 hectares**,** making it the country's second-largest wine region. Its volcanic soils (andesite, rhyolite, and loess) and cool continental climate with ample sunshine and significant diurnal variation contribute to fresh, aromatic white wines with vibrant acidity and mineral character.

Vineyards

The grapes were grown in the **Tuzkoves Vineyard** – means Flint - using the Guyot single cane training system. Total plantation is 1 ha, 2kg/viine yield. The soil is a mix of brown forest soil and andesite, providing good drainage and mineral structure. The 2024 vintage saw a wet spring followed by a hot and dry growing season, resulting in concentrated and ripe fruit**.**

Vinification

Hand-harvested in late September, 2024**.**
Fermentation was temperature-controlled in stainless steel tanks for 6 days on skin followed by 4 month ageing No oak. Bottled in March 2025**.**
Total production: 1300 bottles.

Tasting Notes

On the nose cherry, raspberry and red berry fruits, complemented by delicate spicy notes. On the palate, it is fresh, medium-bodied and silky, with vibrant acidity, lovely fruitiness and a clean, refreshing finish.

Pronounciations:

Benedek: "BEH-neh-dek"
Kekfrankos: “KAYK-fran-kosh”
