Grower

At LGI, we are guided by promoting local estates as well as local producers. We have tightened strong partnerships with single wineries as, we believe, they are the socle of winemaking in the Languedoc region.

Vineyards

Colombard and Sauvignon Blanc are mainly produced in the Côte de Gascogne area in the South-West of France, and gives the region its reputation for fresh white wines. Adaptable to the hot climate, it provides nice acidity with lovely flavours.

Winery Philosophy

Les Amourettes range of wines is the result of the most noble winemaking techniques, this is a tribute to the French taste for “les belles choses”.

Winemaker

Marilyn Lasserre studied wine at university for many years in Bordeaux and Toulouse and obtained an English degree from the Wine & Spirits education trust in London. After various winemaking experiences in Bordeaux and Southwest France she spent a lot of time in South Africa, Spain, Australia and Virginia USA. At LGI Marilyn overseas the entire winemaking process as well as the quality of the final product.

Vinification

The winemaking process is designed to preserve freshness and to enhance the aromatic potential of the wine. The berries are harvested at night when temperatures are low, once they have reached optimal maturity. The crop is then pneumatically pressed in order to extract premium juices only. The fermentation process is carried out at low temperature to preserve aromatic intensity. All these steps create a fragrant and refreshing white wine.

Tasting Notes

Bright lemon-green in colour. This wine is intense and fruity, with lovely fresh tropical fruit and grapefruit aromas. The taste is very refreshing on the palate. The finish is unctuous and fruity. Enjoy it lightly chilled as an aperitif or with marinated vegetables, grilled fish and shellfish.
