

## **Why Massachusetts Dog Training Services (MDTS) Board N Train?**

Your pet does not need a trip to the kennel to train. Your pet needs to “train in a home environment” to “live in a home environment” with rules and manners. MDTS gets better results than a facility board and train because your pet’s daily life is richer in a home setting. Whether you need the most basic training package or need more intense training to combat reactivity, guarding, aggression, or incessant barking. We are the home school for your pet. Throughout your pet’s board and train you will be kept updated on your pet’s daily growth. You’ll receive daily pictures and videos, weekly written reports, and a one hour drop off training session with David. Your board and train with MDTS will provide the tools you need for strong communication and a healthy relationship with your pet.

About our trainer, David Talbot:

With a lifetime of experience training dogs, David is well versed in all aspects of training canine companions from basic obedience training (including potty) to rehabilitating severe reactivity and aggressive behavior.

Since receiving his formal canine training certification from Penn Foster in 2008, David has been responsible for creating and executing board and training programs for dogs throughout New England. Formerly the head trainer at JM Pet Resort in Brockton, he also educates coworkers to become certified dog trainers.

David’s experience in the field allows him to give like-minded dog loving individuals the skillset they need to become exceptional POSITIVE REINFORCEMENT dog trainers.

### **Which Board N Train is right for you and your dog?**

#### **Basic Training: 3 week minimum:**

Your new puppy or older rescue hasn’t learned potty or crate training

Doesn’t know basic commands : sit, stay, down, off, wait, easy, free time, lets go, heel (stage one)

#### **Advanced Training: 4-8 weeks:**

Your dog is potty trained and has some basic obedience but still struggles with some of the commands and impulse control. They also may lack confidence in public settings (ie exhibits leash reactivity) and/or not have proper recall and leash etiquette.

Your dog suffers from fear aggression and reactivity. Often making it difficult for them to co-exist in the outside world. Your dog’s behavior is often difficult to handle. You may have considered rehoming your dog. Don’t worry, we can help.

Please note, dogs are accepted for training on a case-by-case basis. You and your dog must complete a phone evaluation with our trainer before we can confirm pricing and if they are fit for our program. The ability to board and train dogs from the same household is dependent on the dog's needs.

### **Training Programs:**

We offer a variety of training programs tailored to meet the needs of dogs at all life stages and skill levels. These programs are designed to provide high quality training and ensure positive outcomes for you and your dog.

1. **3 Week Puppy Boarding and Training Program**

For puppies 12-20 weeks old

2. **3-Week Customized Board N Training Program**

Suitable for dogs of all ages

3. **4-8 Week Advanced Rehab Program**

For dogs of all ages with behavioral modification needs

4. **12-Week Service Dog Boarding and Training Program**

Customized for dogs of all ages preparing for psychiatric service animal certification
