

Excerpts from the video titled 'spanish flu – the real cause'.

50 MILLION DEAD!!!!

“SPANISH FLU was a DECOY TO HIDE THE TRUTH”

The Spanish Flu was NOT A FLU VIRUS, it was a bacteria that caused severe and in most cases lethal pneumonia.

This bacteria pneumonia was the killer in a minimum of the 1918-19 pandemic autopsies reviewed.

-from a National Institute of Health paper, 2008.

During the first half of 1918 the first lot of an experimental meningitis vaccine cultured in horses and funded by the Rockefeller Institute was injected into soldiers at the Fort Reilly Military Base in America.

Eventually millions of soldiers were injected with this experimental serum and two million went overseas.

They fought under poor sanitary conditions. The bacteria spread like wide fire wherever they went.

The story in the press stated that the soldiers were coming home with all sorts of European diseases, so the American population was vaccinated as well. The vaccines were eventually distributed all over Europe. Only the vaccinated died. Unvaccinated healthy men and women of all ages did not die. If it was a flu virus it would have affected mostly the elderly.

Who was in charge of distribution and the mass vaccination program? The Rockefeller Institute.

Who was the main scientist in charge? Dr. Fredrick Gates.

Rockefeller Institute THEN and NOW. Bill and Malinda Gates NOW.

Policing the shutting down of society and mask wearing THEN and same NOW.

Just about a century inbetween Spanish Flu and Covid.

The MKUltra operation, which started in Nazi Germany, used chlorpromazine (known as the chemical lobotimizer) because it allows the suppression of critical judgement with a loss of consciousness. This drug creates the perfect slave. People can function but cannot critically think; they cannot question. This drug has a side effect or rather a direct effect of sterilizing people.

Good people have been progressively identifying all sorts of non-disclosed harmful substances in our food-chain. Has the drug Chlorpromazine been added to our drinking water and food?

Via optical and electron microscopes we have been able to identify the parasites and other toxic elements contained in the bio-weapon shots.
