

## Fleet Capabilities

## Ghost Rider USA

A Rigid Hard Bottom Inflatable Boat (RHIB), re-fitted in 2021, has an inboard/outboard 200 hp turbo diesel engine. She has a one hundred gallon tank, red/yellow strobe lights, light bars, forward and aft spot lights, forward and aft hailers AIS and a Garmin display GPS. She is known as the most stable and built for extreme conditions. Zodiac Hurricane™ RHIBs are designed by highly skilled engineers and built by experienced technicians to be capable of operating in the roughest sea conditions.

The Ministry of Sailing RHIBs are available for commercial, coaching, security, work boats, or movie rentals/contracts etc.. Our professional sailors and safety consultants have been in the marine business, racing around the world, managing race teams, events and training sailors. We also have unprecedented experience responding to disasters and providing personnel recovery operations. Price and reliability are always a concern, especially today. We provide both, in return for repeat business and friendships throughout the world. If you're in the business of racing, maritime security, diving, ocean rafting or just pleasure boating we will provide you with reliability, safety and efficiency for a fraction of the costs. **We can place the Ghost Rider anywhere from New York, Chicago to Key West in 24 hours.**

# United Kingdom Office

The Ministry of Sailing provides Logistics, Risk Management, Safety and Security Consulting, Maritime support vessels, work boats and personnel. We are one with the water, spreading diplomacy on the sea through best practices in environmental awareness and medical care planning. We can support air operations in Afghanistan, Search and Rescue on the Tigris River in Iraq and Anti-Piracy training in the Gulf of Aden,,,, now imagine how well we can work in our own back yards.

We are the Ministry of Sailing, promoting diplomacy on the water for all mankind!
