

SUCCESS OF 2023

Here's a look back at the distribution of **2023** in numbers:

Over 500,000 pounds of food donated
worth over **\$2,500,000**
Feeding over **12,000** families
at **15** different locations

During 2023, we have been able to meet the increased demand at all of our distribution locations thanks to the support and efforts of our generous partners. We also expanded ministry activities to reach more children within the community.

LAKWOOD BRONGOS KIDS GRANT

»»» Supported inner city kids

This grant provided the ability for over 40 kids to participate in lots of fun activities. We visited several pools and waterparks, traveled to the mountains, the Denver zoo, Elitch Gardens and so much more!

AMERICAN LEGION GIVING

»»» Continued Charity

Again this year, the local American Legion Chapter has supported Christmas gifts and fun outings, such as our annual trip to Boondocks Food & Fun. Everyone had a wonderful time!

VAN UPDATE!

»»» New Transportation

This year, we were blessed with a new van. We donated the previous van to a well deserving grandmother of 6 to help transport all her grandkids.

VOLUNTEERS & PARTNERS

We couldn't maintain the successful giving and outreach achievements through out the year without the love and support of our volunteers and partners. This crew remains committed and dedicated in supporting our mission. We hope 2024 will bring even more people to assist in our efforts. We specifically are looking for more drivers and volunteers to help transport food during the weekdays. Spread the word!

2024 OUTLOOK

We are always looking for ways to expand so we can continue to help the ever growing needs and population in our community. In particular, we are looking to find a location that can provide the storage space and facilities we need for this growth.
