23 September 2025

Statement to the Neighbors and the Administration of La Mesa Club de Golf A.C.

On **Saturday, September 20, 2025**, two homes on **Marbella Street** were burglarized. Once again, our community has suffered criminal acts that have caused deep concern and indignation among residents.

Security was the main reason we chose to live in the **Club de Golf Malanquin, La Mesa residential area**, and we pay our monthly fees to La Mesa Club de Golf A.C. precisely for this purpose. However, we are alarmed to see that **home burglaries have increased** without an efficient or visible response from the administration.

We have filed **multiple formal complaints**, yet so far we have received only **promises**. A substantial amount of money is collected in fees, but there is no transparency on how these resources are used, nor on which residents are failing to contribute.

Urgently Required Solutions:

1. **Immediate Action Plan.**
   o Professional training of security personnel.
   o Access control protocols with modern technology.
   o Well-organized patrols, both daytime and nighttime.
2. **Active Participation of Residents.**
   o Since residents finance La Mesa, we have the right to be consulted, informed, and involved in decisions regarding security.
   o It is essential to **motivate and engage all neighbors** to contribute fairly to expenses for the benefit of the entire community.
3. **Collaboration of the Golf Club.**
   o The Club receives a high number of visitors daily; therefore, it must coordinate closely with La Mesa to **strengthen access controls**.

Up to now, crimes have been limited to material theft. However, considering the broader climate of insecurity in **Guanajuato and across Mexico**, there is a serious risk that these incidents could escalate into **violent robberies that threaten our families' safety**, unless immediate and effective measures are taken.

We demand concrete actions, not more promises.
