

# RELIGION *in* KINGDOM OF KRAVINKIS

# WHAT IS RELIGION?

Religion is a faith, a devotion to all that is considered sacred. It is a cult that brings man closer to entities to whom supernatural powers are attributed. It is a belief that people seek satisfaction in religious practices or faith, to overcome suffering and achieve happiness.

Religion is also a set of principles, beliefs and practices of religious doctrines, based on sacred books, which unite its followers in the same moral community, called the Church.

All types of religion have their foundations, some are based on various philosophical analyses, which explain what we are and why we came into the world. Others excel in faith and others in extensive ethical teachings.

# THE IMPORTANCE OF RELIGION

Religion is important because we all need to believe in something to have any motivation or purpose in life.

In difficult times usually many people cling to a God, they believe that he will solve things and the best will always happen, so we can say that faith in a God is very important for our society, consequently religions are important too.

And in the Kravinkis Kingdom, we support the fact that religion embraces and welcomes people, through the faith that people believe. For many have faith as a form of strength and courage to go, come, face and move forward regardless of the situation. And with religion, the population will feel more "at home" and protected by their faith, thus having their freedom and equality (just what we want to give them in a better future life). Allowing them to get to know each other, connect through the culture of their faith and becoming a harmonious society with rights to be welcomed.

# VALUES THAT BRING PEOPLE TOGETHER

Many people come together in religious communities to collectively experience the faith. Religions or churches can help people to seek understanding about the meaning of life, to face difficult times with courage and hope, such as sadness, illness, accidents, death, as well as to celebrate and share the happy moments of life. Religions can also teach important values, contributing to the humanization of individuals, such as the fraternal acceptance of people, the exercise of dialogue, the appreciation of life, charity, solidarity, the feeling of love that is manifested through attitudes of respect and affection for others.

# RESPECT AND CULTURE

Religion is one of the most important aspects of a culture, and repressing it, whether due to lack of knowledge or prejudice, should not be an accepted attitude anywhere, much less in the Kingdom of Kravinkis, where people live together to exercise their profession, live their dreams, have their freedom to come and go, their rights and duties and everything that encompasses the personal life of every Kravinkian citizen.

“Everyone has the right to freedom of thought, conscience and religion: this right implies freedom to change his religion or belief, as well as freedom to manifest his religion, alone or with others, both in public and in private, teaching, practice, worship and rites.”

RESPECT FOR RELIGIOUS FREEDOM  
AND PRESERVATION OF THE CULTURE  
OF EVERY KRAVINKIAN PERSON AND  
CITIZEN IS OF EXTREME IMPORTANCE,  
RIGHT AND SUPPORTED BY THE  
KINGDOM OF KRAVINKIS.
