Report Creation

Click on the Report button from the main middle menu

You will be redirected to the Reports page

On the left side, you can click on the New Report Button to create a new one.

You can click on Smart Icons to view or edit or delete

	E 🤃 Intelligence			S DATA (!) ALERTS K REPORTS
C‡	Create a new report			
ŧ	Dashboard		^	is Rev Vs Cost
	Subscription Overview	٩	1	DN
	User Base Status	٩	/	
ဓ	Campaign		^	prk
	By Adnetwork	٩	1	ork Backup DK
	By Advertiser	٩	/	er
	Adver Vs ADN	٩	/	
	SVC Analysis Rev Vs Cost	٩	/	
⊞	Services		~	
\$	Finance		~	ing

You can also create or view or edit a report from the sidebar menu.

When you click on New Report you will be redirected to the Edit Mode View

Enter a Title for the Report

01

You can enter a description

You can enable Generate On Load, which means that if you save a search in the report, it will automatically generate when you view the report

You can select which group(s) can view this report

🗏 🌊 Intellig	gence	🛢 data 🛛 (!) Ali	ERTS REPORTS

			50 🔻	Groupable	
			Filterable		

To start building your dashboard, you can choose one or multiple widgets by clicking on it

When you click a widget, a popup will appear to select dataset and datasource

After selecting a dataset and datasource, you can configure the widget by adding a title, changing colors, and enabling or disabling options like Draggable, Resizable, Groupable, and Filterable.

View Report

After adding all your widgets and finalizing the dashboard design, click Save Report to save your report.

The data in the View mode are Mock up data not the real data

To start view your real data, click on View Mode

Global filter you can add multiple rules to filter your all widgets

When you click Global Filter, a popup will appear where you can add rules and save your search as default. Once done, click Apply.

When you apply the filter, click on Generate to generate the filtered data.

To enable Live Report, click the Circle Icon. This will automatically generate data whenever new data is fetched.

If you want to add or remove height from the dashboard just click on + or -

- Click on Camera Icon to download a snapshot of this dashboard
- Click on Design mode if you want
 to change anything related to
 design
