Purnima Nath Officially Launches Campaign for U.S. Congress Wisconsin-4

Brown Deer, Milwaukee County, Wisconsin: On Thursday, May 16th, Purnima Nath officially launched her campaign for U.S. Congress Wisconsin District 4 in Brown Deer, surrounded by friends, family, well-wishers and supporters.

Former ICE Director Tom Homan praised Ms. Nath, "Not many people understand the connection between border security and national security; she does. Not many people understand the connection of immigration to national security, but she does. Purnima is a strong proponent of national security, legal immigration, and securing borders. Something is coming. We do not know when. We do not know where. Even the FBI Director has raised alarm on national security issues. Unfortunately, today we are facing the biggest national security threat in our country. Who can speak better than her as a legal immigrant? We need someone strong like Purnima who can advocate for safer community and our country; and fight hard against anti-American agenda."

Among the attendees were John Pudner, President of Take Back Action. John asserted, "My job was to recruit candidates to run for office. And if I had found Purnima then it would have been like a celebration. I would have told every organization that we found our candidate. I have watched her for a few years now. I am excited that Purnima is running. She is brilliant, and she knows her stuff. She is a natural, people like her, and have solid conservative credentials, but she can also reach across and talk to anybody. Purnima is the strongest candidate, and I am extremely fortunate to have discovered her".

Bob Spindell, Chairman Wisconsin Congressional District 4, Republican Party of Wisconsin, stated, "I met her as a Northwestern Kellogg Alumni. She ran for both conservative and non-partisan political positions. Inflation, energy prices, open borders, and war are hurting common people and businesses. Our freedom is at stake. We need some strong leadership".

Nath voiced, "DEI is a scam, and DEI is the American caste system to destroy America from within with reservation bypassing merit. As a legal immigrant, I will fight against illegal immigration, open borders, and corruption. If 200+ nations can be abolished, we can abolish America then. Why should it be our (America's) responsibility alone to intake immigrants without checking their backgrounds? We must know who is coming into our country and settling". Nath expressed that, she will ensure our communities are developed and defended, not just the border of other foreign countries. "Our educational institutions are not providing quality education that can compete with global talent. Would America have hired someone like me with 3% math or 6% reading proficiency?", Nath asked. Nath stated that, "left political parties are not only anti-women, but anti-American and anti-humanitarian at this point. We must fight to restore American freedom and liberty. I will work to make our community secure, safer, and just."

Wisconsin Congressional District 4 encompasses Brown Deer, River Hills, Bayside, Fox Point, Whitefish Bay, Glendale, Shorewood, Bayview, Wauwatosa, Greenfield, West Milwaukee and West Allis.

Ms. Nath is a passionate advocate of national security, border security, immigration, education over indoctrination, and the economic development of our community. Ms. Nath is a legal immigrant; and speaks and writes on geopolitical matters and foreign affairs. Nath has an MBA from Northwestern University and she is an Engineer. Nath is committed to bringing strong common-sense leadership to Congress and is a strong voice for justice, security, safety and development.
