Subject: YOU ARE CREATING AN ISSUE THAT DOES NOT EXIST IN THE U.S. REQUEST TO REJECT HINDU-HATE PROPAGANDA OF CASTE & DISCRIMINATION

Dear SANTA CLARA COUNTY COMMISSIONERS:

Namaskar! I write to you, today, as a **LEGAL HINDU Indian-American citizen**, community leader, President of Spindle India, Inc. a nonprofit organization strengthening India-US relationships and promoting **true** Diversity and Inclusion. I am deeply concerned about the county's attempt to push Hindu Hate propaganda under CASTE. Kindly find the attached signed letter by many concerned Hindu community members, contributors, leaders throughout the United States. This attempt of Santa Clara County is NOT confined to one small county BUT will negatively impact all hardworking law-abiding Hindu Indian-Americans, families, children, and their education/employment in the land of the United States.

My name is **Purnima Nath**. This is an important issue for all concerned legal Hindu citizens like me and our children, in the United States, who know NOTHING about caste. Even in India, my upbringing had nothing to do with caste, **as a non-privileged hardworking poor third-class Hindus** who got no benefit from the socialist government. Stop propagating discrimination in the United States in the name of "humanity" and "equality". You are the one who is influenced to divide the community and spread hatred.

I am expressing **strong opposition** to your effort of adding **caste** as a protected category in the Santa Clara, California, United States:

1. County **deliberately & repeatedly** stopped any/all kinds of criticism of Equality Labs, protected them, even though the primary basis of the entire discussion is **Equality Labs fraudulent & fudged report. WHY?**
2. People saying: "*not knowing about caste is a privilege*", is absolutely false & bogus propaganda. My children & I do not know our caste. Why should we/our children be forced to learn about caste in schools which does not exist in the United States or disclose at work, and create a social division in the United States?
3. Merit is being discarded, **conveniently** (taking advantage of words like race, religion, gender & caste; under the guise of "humanity" & "equality"). This is not equality. Privileges based on SKIN COLOR, GENDER, SEXUAL PREFERENCE DOES NOT EQUAL TO MERIT. Caste is a NON-ISSUE.
4. Hindus are largely insulted and demonized with **caste, cow, and curry**...already. Do you pretend that your resolution is not going to single out Hindus and Hindu children when it will impose "DISCRIMINATION" on Hindu children and Hindus?
5. The recent China-Corona-Virus outbreak in India is being used by Hindu-haters and India-haters to malign Hindus and India. Current data shows the death rate 1.12% in a country with 4.35 times MORE population than the United States, with much fewer resources, who helped 170 countries and donated FREE vaccines – current administration and pharma lobby tried to BUY India off [East India Company style]. Leftist American media has been taking advantage of the **freedom** India has showered them with. Selling pictures of Hindu cremation pyres is a business now.
6. Being featured or writing in LEFTIST propaganda channels like NPR or Washington Post or New York Times does not make anyone celebrities or scholars. That is NOT the basis of accepting or rejecting such propaganda. Not a single rebuttal has been allowed against these propagandists and anti-India organizations.
7. Why should these fraudulent organizations be trusted?
8. People saying: "**DALITS must be believed**" is simply an OVERT **propaganda. Is this the evidence this issue is based on?**
9. Hindu voice was ignored. Hindu American Foundation was given 20 min (YET a red carpet was rolled out for the hate group "Equality Labs"). In between, they were interrupted heavily to remind the "Equality Labs" with no academic or social contribution, masquerading as "human rights organization" cannot be criticized nor questioned of their misinformation and disinformation.

The proposal must be fully and openly debated with the immigrant Hindu population viewpoint clearly stated. The historical colonial use of the Casteism trope for subjugation, divide & rule must be presented as the proper background to frame the Hindu Community's concerns. Furthermore, this is another instance where the **colonialistic supremacist trope of caste is being imported in order to demonize, denigrate devalue & disqualify the contributions, education & employment eligibility of a large section of Indian / Hindu diaspora by automatically classifying such contributors into potential oppressor category & thus resorting to establishing & legalizing unfair hiring/promotion practices.** Plus, the side putting forward the proposal must CLEARLY demonstrate how, in the case of "Dalits" and people self-identifying as "Dalits", will not engage in targeted harassment and discrimination against individuals under the garb

of this proposal/ legislation. How is that justified knowing many poor so-called upper caste people are routinely harassed, threatened & killed in South Asia by lower-caste people?

This is a **pretext for another Hindu genocide** – propagated & orchestrated right here in the United States, just like the #AntiCAA propaganda was mobilized by the Democrat cities, starting with Rep. Pramila Jayapal in Seattle in Feb 2020. Now that USCIRF has successfully targeted and attacked Hindus, India, Modi & BJP with declaring India as **CPC** (*Country of Particular Concern*), it will solidify their agenda of sanctions and blocking USAID. Hindus have been slaughtered, murdered, raped by invaders for 2000 years in India. The majority of the people are poor in India. Practically, Dalits (Scheduled Caste/Scheduled Tribes) have enjoyed massive privileges for 75 years since caste-based privileges were rolled out by the socialist/communist Indian government. Christian orientalist in disguise of Dalits are in NO condition to point fingers at the Hindu community. You MUST NOT ignore the fact that Hindu Dalits are the majority of "Dalits" and Dalits are the mainstream Hindu Indian American community. Dalits with "Equality labs" are in fact Christians! Self-certifying Dalits are playing divisive anti-Hindu agenda

Santa Clara County is enabling the abusers and deceptive special interest groups; and, setting a dangerous precedence in this massively divisive and disturbing trend against Hindus under the guise of human & civil rights. You are creating an issue in the US that does NOT exist now. I condemn your politics, discrimination & hate campaign against Hindus. Rampant Hindu-Hate campaign and attempt to SINGLE OUT HINDUS is pushed by enormous Hindu-Hate groups, often posing as Hindu human rights groups, but are Islamists and Christian missionary conversion groups. **Equality Lab's made-up FUDEGED shiny report must be rejected.**

Are you genuinely interested in addressing the root cause of the **RAMPANT Abrahamic & Marxist/Communist ideology being used to target a specific section of immigrant society [i.e., Hindus]** in the United States? Or are you going to create another divide in the society, like race, gender, sexual preference, be an active participant of another Hindu-Genocide, in the name of "humanity" & "equality"?

P.S. Signatures of concerned community member(s), leader(s), and organizations attached.
