BUILDING DREAMS TOGETHER

Creating your ideal space with top-notch remodeling construction

ABOUT US

ABOUT BUILD CRAFT:

Build Craft Construction is an innovative interior design and decoration company established in UAE and continued to reach Canada. The company has been established to provide the market with innovative and creative ideas for the interior design and decoration while considering the sustainability, environment and the public health. We work with a passion to give any space a touch of beauty that reflects the type of the project and clients' ideas.

The Company is specialized in providing elegant and stunning interior design services for both residential and commercial projects. Our witty interior designers are well experienced with various international styles. We also aim to build lasting relations with our clients through strong communications and hard work. We are always happy to customize enchanting and marvellous designs for your units.

You Dream We Design

In Build Craft, we believe that "What is done with love is done well". Therefore, whether you are an individual or a company client, a residential or a commercial project we will take care of every single detail of your project. You just dream and we will transfer your dream to reality.

SUSTAINABILITY AND ENVIRONMENT

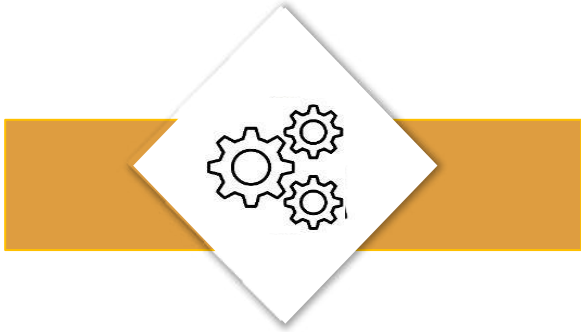

We carry out any project based on the importance of sustainability and environment with a luxury touch. GID encourages the use of new decoration materials that in compliance with sustainability concepts. Perfect design is not just a matter of a beautiful shape, it is also a matter of a beautiful "Life".

INNOVATION & CREATIVITY

In GID& SAS, we use the most state-of-the-art design tools and technologies along with our creative teamwork to give the client a clear visual image for the project.

GID PROJECTS

Since 2010, GID& SAS implemented a number of different projects inside and outside UAE in collaboration with the success partners.

LED Pendulum Slim

A beautiful luminaire for any setting , LED Pendulum Slim. The clever lighting architecture and the sophisticated design make this lamp elegantly unique.

- Timeless, elegant design
- Unique lighting architecture
- Unlimited number of applications
- Allows for gentle dimming
- Rapid installation

LED Spot RGBW

This spot offers a fire-rating to suit varying construction types.

- Focused warm white light
- Diffused RGB light
- High light output
- Average life span of 25 years
- Smooth dimming curve

LED Ceiling Light RGBW

With its built-in motion and brightness sensors, the full-color LED Ceiling Light is a powerful all-rounder that can conspicuously fulfil the requirement of smart lighting.

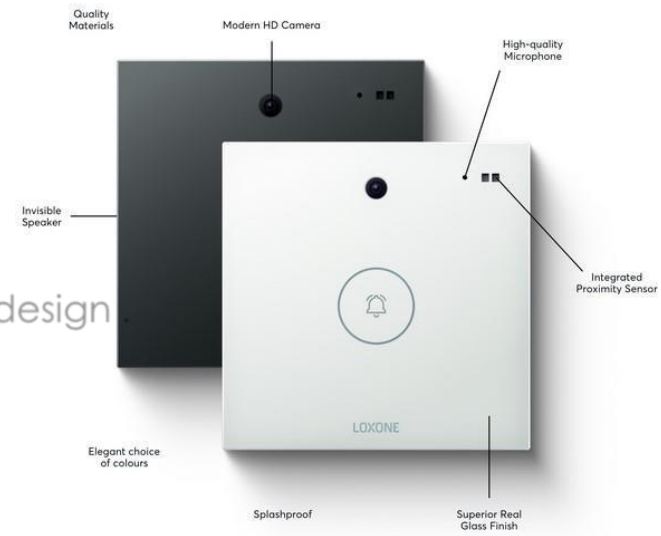

- Integrated motion sensor
- Integrated brightness sensor
- Timeless design housing the latest technology
- High lumen output
- Uniform spread of light with diffuser
- Smooth, gentle dimming curve
- Available in white or anthracite finish

Intercom White :

Timeless, elegant design with real glass satin-finish surface .

- HD camera with a 120° viewing angle .
- UV-resistant .
- Interactive bell button - lights up as someone approaches .
- Invisible speakers thanks to an innovative sound-channelling design .
- Integrated proximity sensor .
- Splashproof .

NFC Code Touch for Nano Anthracite :

- The perfect access control solution. The NFC Code Touch is ideal for control of your door, gate, garage and alarm .
- Sleek and modern design .
- Access via unique codes for all members of the family .
- Issue schedule-based or one-time codes .
- Different codes can trigger different functions (eg: Open gate or open garage)
- Full app control .

Touch Surface Air :

Extraordinary control integrated directly into your home's hard furnishings. The Touch Surface puts Loxone's revolutionary touch switch concept at your fingertips - whether on a kitchen worktop or coffee table.

- For hard furnishings or surfaces around your home
- Control lighting, shading, music and more
- 5 touch-sensitive contact points (and an activation touch point)
- Activation status LEDs
- Works on stone, wood, ceramic and glass (non-conductive)
- Optional audible click feedback

Electrical solutions

Electricity Meter (3 Phase & Single Phase) :

The bi-directional energy meter helps you to monitor energy usage and run your home more efficiently.

- Records detailed data such as energy, current, active power and voltage
- 3-phase meter & Single Phase
- Easily integrated into a Smart Home
