Personal introduction

I am a university teacher myself, and I also offer Frisbee sports courses at school! It has a certain popularity among Frisbee groups in China, and it will play a leading role in spreading among university communities. As a retired track and field athlete, I have good athletic ability and competitive thinking, so my performance in Frisbee golf has improved significantly in one year, and I also won some recognition in the Chinese Frisbee golf community. I also have my own Frisbee Golf Club, which is an 18-hole open venue with fixed baskets, and our venue is the only standardized venue with fixed baskets in Beijing. Over the past year, there have been dozens of experience in organizing competition activities, which has been praised by the club and participants! I will continue to work on the Frisbee Gore promotion.
