

BIOMAT BY RICHWAY & FUJI BIO INC.

The Biomat is an FDA approved medical device that combines far infrared light and negative ion technology to relieve pain and promote circulation.

FAR INFRARED RAYS

Discovered by NASA, these rays are the safest light wave that offers a huge variety of benefits. Similar to natural sunlight without the harmful UVA/UVB radiation, FIR penetrates the body and causes vasodilation, which enhances blood flow. This process benefits muscles, circulation, and joints.

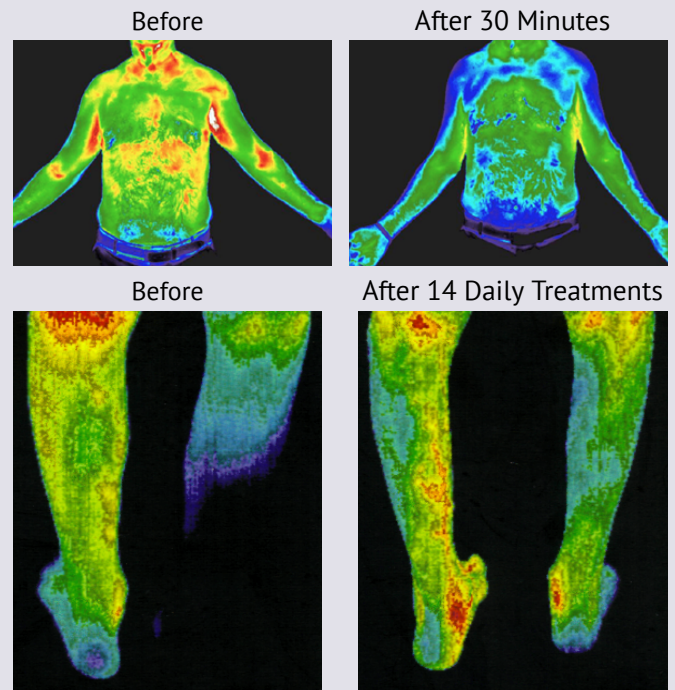

NEGATIVE IONS

Positive ions have a negative effect on the body and mind, while negative ions have a positive effect. Negative ions increase calcium and sodium in the blood which allows cells to eliminate toxins and better absorb nutrition.

BIOMAT BENEFITS

- Relieves Muscle Pain
- Reduces Stress & Fatigue
- Increases Circulation
- Reduces Arthritis Pain
- Improves Sleep Patterns
- Alleviates Allergies
- Rejuvenates Skin
- Balances The Body's PH
