I am building a robust (3/4 inch thick steel top) welding and fabrication table. You are invited to see the kick off of this project and the associated tools required.

It is said this is a massive over kill. It most likely is an over kill in size and weight. It will be 4 ft x 8 ft and will weight 1,600 lbs

This is a good excuse to hang out with the guys for a while

Check out the flyer above: VP Jim Mann is inviting us to his amazing Man Cave Again !!!
