

## Welcome to Zoo Church Christian Academy

You've just taken the first step to immersing your child in the world of education, exotic animals, and nature! This full-time hybrid school will encompass traditional schooling via online homeschool curriculum and hands on learning with animals and nature.

**What is ZCCA?** It is an alternative to traditional education in the public school system with the advantage of real-life application. Even if your child is not planning to be a zoologist this is still a great option for anyone wanting to expand their horizons.

**How does it work?** We will start each day with your child's traditional school curriculum work from whichever school you choose. Your child must be enrolled in an online homeschool course like Christian Academy of America, Abeka, Acellus, or any other accredited program of your choosing. Feel free to consult with us on what will be a good fit for your child. After the schoolwork is complete in the morning we will dive into hands on animal and nature work, after lunch of course.

**Are there Scholarships?** We are constantly fundraising to help provide partial scholarships to those who cannot meet our financial requirements. Please reach out to us for assistance if you need help paying for your child's tuition.

### Administration

Ed & Brenda Laquidara – Owners of Animal Adventures, Pastors of Zoo Church,

Ed Laquidara – Zoology and Herpetology Teacher, Chaplin.

Plus additional staff in the animal department and academic guides.

### Full Year Tuition

### Hold Harmless Agreement

I, hereby agree to hold harmless Zoo Church, Animal Adventures, and the Laquidara family and their employees in the event that my child becomes injured physically either temporarily or permanently, even to the point of death by activities involved at ZCCA.

ZCCA is not responsible for my child's academic results. All coursework must be completed by the student with the guidance of ZCCA's teacher/tutor, and the child's parents.

ZCCA will provide professional training in zoological electives but is not providing a "degree" in zoology. ZCCA is not a substitute for a college degree even though they will learn more hands-on training here than in college and therefore cannot promise employment with any other zoo or animal center upon graduation.
