

DECEMBER NEWSLETTER

Hi all

Where has 2024 gone? I swear as I get older, I blink and another year has passed me by 🤪

2024 has been a very busy year for Awesome Pawz with Pet Sitting, Grooming and Professional Development galore!

Come 2025, you may have already been given, but if not then you will be given your appointments for 2025.

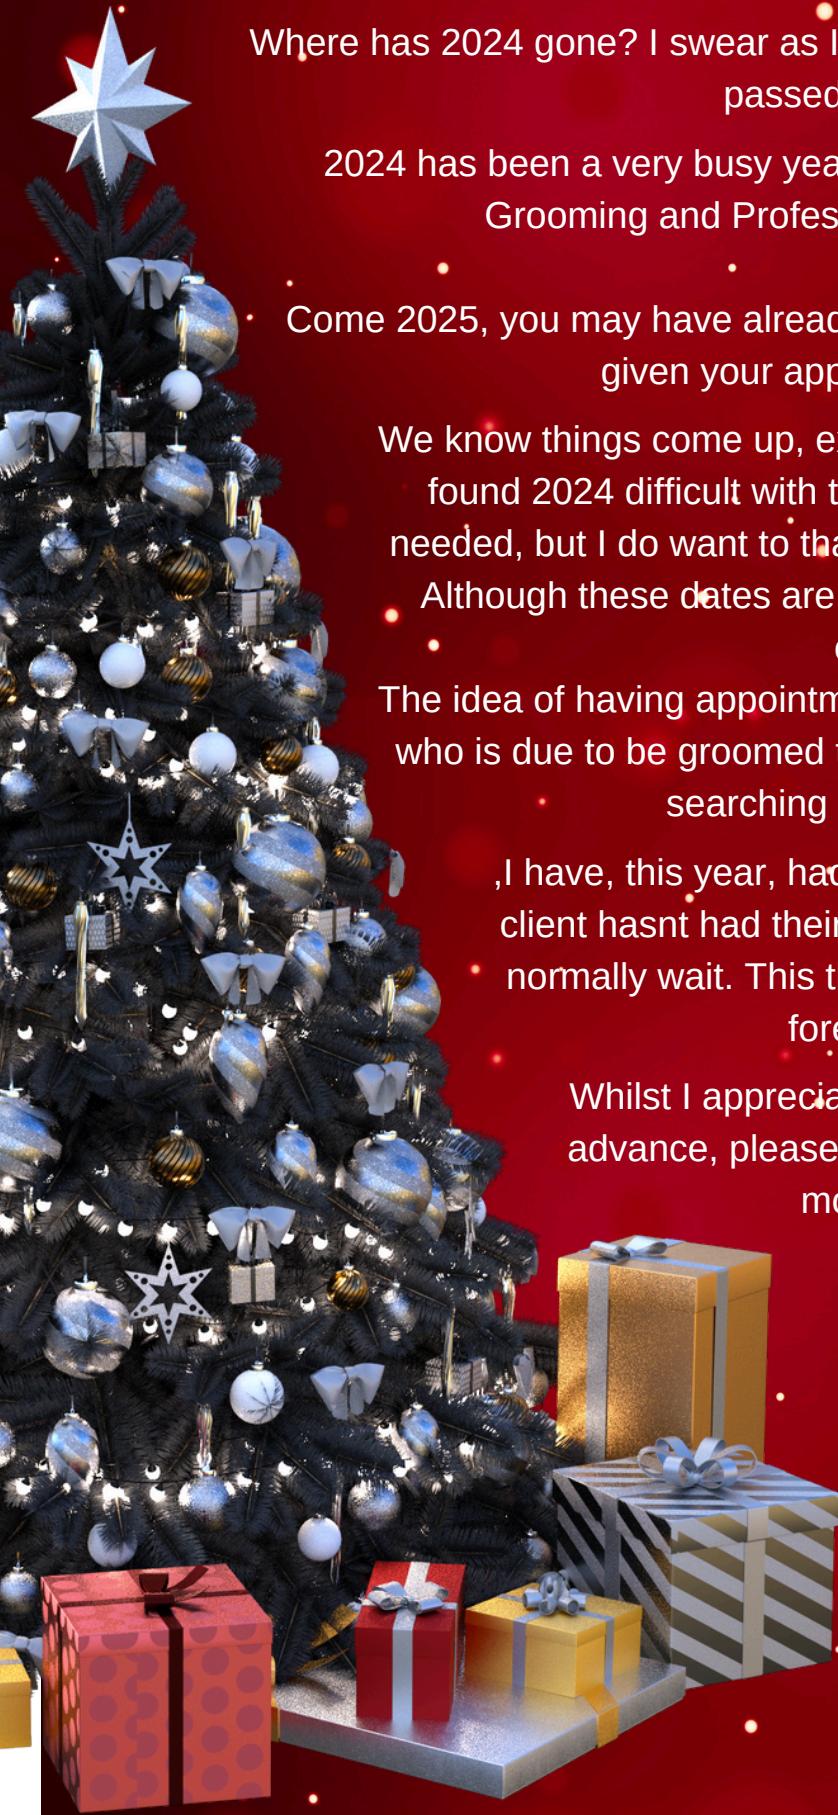

We know things come up, extra holidays or illnesses occur but I have found 2024 difficult with trying to do appointments as and when needed, but I do want to thank you all for your cooperation with this. Although these dates are fixed they are slightly flexible for those eventualities.

The idea of having appointments booked in for the year is that I know who is due to be groomed that month/week plus I am not frantically searching to get clients booked in.

,I have, this year, had my days off planned then realised that a client hasn't had their dog groomed for months over what they normally wait. This then results in me to booking them in and foregoing my own time off.

Whilst I appreciate that these dates are given to you in advance, please be aware that there may be a need to move them around slightly

As we move into the festive period together, I would like to say that I do have a very limited number of appointments available for this month and that my last working day of 2024 is Friday 20th December. I will be having my own, well deserved, holiday break and returning to work week commencing 6th January 2025.

DECEMBER NEWSLETTER

December is Safe Toys and Gifts Month. Very apt for the month we are in don't you think? I have put together a few things that maybe would be good gifts for our pets (all of which can be purchased through the links in this newsletter)

I want to share that I have a raffle that will be drawn on 16th December. Winner will receive a Mystery Bag worth £35+ and profits from the sale of these tickets will be donated to Canine Cancer charity. Tickets are 50p each and I will add your name to my list of participants. You can either bank transfer or cash is fine also. If you would like a FREE ticket entry, please sell £10 worth of tickets (remember to take their name and contact details incase they win, plus so I can put it on my sheet) and your FREE entry will be added.

Lets see how much we can raise for
Canine Cancer charity together!

LASTLY, I WOULD LIKE TO SAY A HUGE THANK YOU TO ALL MY CLIENTS, PAST PRESENT AND FUTURE, I APPRECIATE EVERYONE OF YOU! FROM MY HOME TO YOURS, I WISH YOU AND YOUR FAMILY A VERY MERRY CHRISTMAS AND A POSPEROUS NEW YEAR.

UNTIL 2025....

What's in store for 2025?

- 2025 will, hopefully, see Awesome Pawz expand into new premises...more details to follow shortly 🙌
- Janine to complete her Modifying Canine Aggression Diploma
- New clients that Awesome Pawz can help, be it Training, First Aid or Grooming
- Awesome Pawz to develop some booklets for various areas of pet ownership that can be purchased
- More time for Janine to spend with her family and friends

ICF | Stomodine F | Meat Flavour | Fights Plaque & Bad Breath | Healthy Dental Oral Hygiene |

£12.54

- Stomodine F contains safflower oil, vitamins, omega 6, chlorhexidine and Tris-EDTA which help manage and reduce bacteria that cause plaque build-up and bad breath.
- Stomodine F's antibacterial and soothing properties work quickly to improve oral hygiene in cats and dogs.
- Used long-term, it can help reduce the risk of dental problems and helps promote healthy teeth and gums.
- Stomodine F is suitable for dogs with food sensitivities.
- Apply Stomodine F between lips and gums using the applicator or directly with a finger between meals. Use 1-2 times daily for minimum of 15 days and then ongoing as required. It can be used after dental procedures for dental maintenance.

Orozyme for Dog and Cat

£14.16

The Orozyme dental care gel is the ideal solution for effective oral hygiene. The peroxidase system contained - an enzyme complex of saliva - helps maintain the natural balance of micro-organisms in the mouth. As the effectiveness of this system depends on the level of saliva formation and it is influenced by the general health condition, feeding and age, it is useful to administer the peroxidase system. Orozyme dental care gel continues to contain a surface active substance that ensures sufficient long contact of orocymes with the teeth and gums. The enzyme complex infiltrates the plaques and thus destroys the basis for bacterial growth. This process supports the destruction of existing plaques and prevents further plaque formation. In addition, plaque is mechanically removed by mild polishing agent contained in the gel with the help of saliva and tongue of the dog.

TINSEL ALWAYS ROCKS A TINA TURNER LOOK AFTER A BATH

TINSEL HAS BEEN A MUM TO 9 PUPPIES IN TOTAL
