

OCTOBER 2024

Hiya guys

Well what a few months I have had! July, August and September saw me back to back pet sitting across North Yorkshire and Cleveland but I have a couple of weeks home, grooming, before I am back to back again.

I am just putting the final touches to the Pet Calendar for 2025. Thank you to all who have participated in this Calendar and please, if you haven't participated, think about purchasing one or more as you won't be helping Awesome Pawz but you will be supporting Dog Charities! As I have always said right throughout this process, I will publish the charities we have helped but until I know how much money we have collectively spent I don't want to share the charities as if we only sell a few, it won't be beneficial to spread the donations.

Summer is officially over for another year...boooo! As Autumn kicks in and winter approaches we need to start thinking about what can cause problems for our beloved furry friends. As always, helpful hints and tips will follow on in this newsletter!

Dont forget, you have until 31st October 2024 to grab the Pet First Aid with CPR course for a steal at only £25! Book your place today and please feel free to spread the word to all your fellow pet friends and family members!

Also, please check out the online shop at <http://awesomepaws.org> for items for humans and pets!

Until next month guys...

OTHER THINGS AWESOME PAWZ HAVE BEEN UP TO:

- *Completed and submitted the 2nd Unit of my Modifying Canine Aggression Diploma course*
- *Looked at a few clients dogs nutrition*
- *Completed the electrics in the garage (more details coming soon!!)*
- *Busy with more studying*
- *Client completes Pet First Aid Certification!*
- **CHECK OUT THE WEBSITE FOR NEW CHRISTMAS ITEMS FOR YOUR FUR BABIES AND HUMANS!!**

CONKER DANGER!

CONKERS ARE SEEN IN PARKS, GARDENS AND ALONG THE SIDE OF STREETS IN THE UK. CONKERS ARE OFTEN FOUND ON THE GROUND IN AUTUMN AFTER DROPPING FROM THE TREE ENCASED IN A GREEN OR BROWN SPIKY SHELL.

CONKERS CONTAIN A TOXIN CALLED AESCULIN

DROOLING

VOMITING

SHAKING/TREMORS

POOR APPETITE

RESTLESSNESS

DISORIENTATION

STOMACH PAIN

EXCESSIVE THIRST

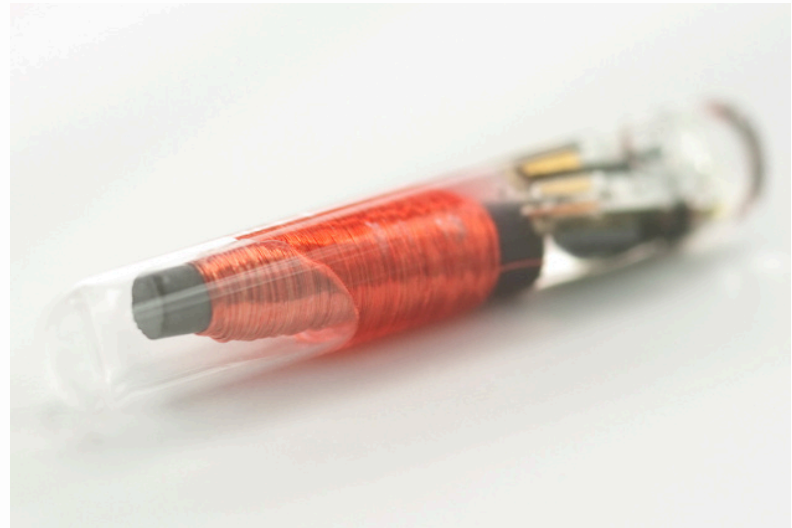

AWESOMEPAWS.ORG

IF YOU SUSPECT YOUR DOG HAS EATEN A CONKER OR THE SHELL PLEASE REACH OUT TO THE ANIMAL POISON HELPLINE OR YOUR VETS FOR ADVICE. NEVER JUST THINK YOUR DOG WILL BE SICK AND THEN FINE! TOXINS RUN THROUGH THE WHOLE BODY AND CAN CAUSE ORGANS TO FAIL IF NOT PROPERLY TREATED

WITH DARKER MORNINGS AND NIGHTS FAST APPROACHING, PLEASE ENSURE YOUR DOG, AND YOURSELF, ARE VISIBLE TO OTHERS AND VEHICLES! I DO HAVE FLASHING TAGS FOR SALE PRICED AT £1.30 EACH!

ALSO REMEMBER TO UPDATE YOUR DOGS MICROCHIP DETAILS! IF YOUR DOG GETS LOST, GOD FORBID, THEN THEY NEED TO KNOW WHO TO CONTACT. IF YOUR DETAILS ARE NOT CORRECT YOU MAY NOT GET YOUR DOG BACK!

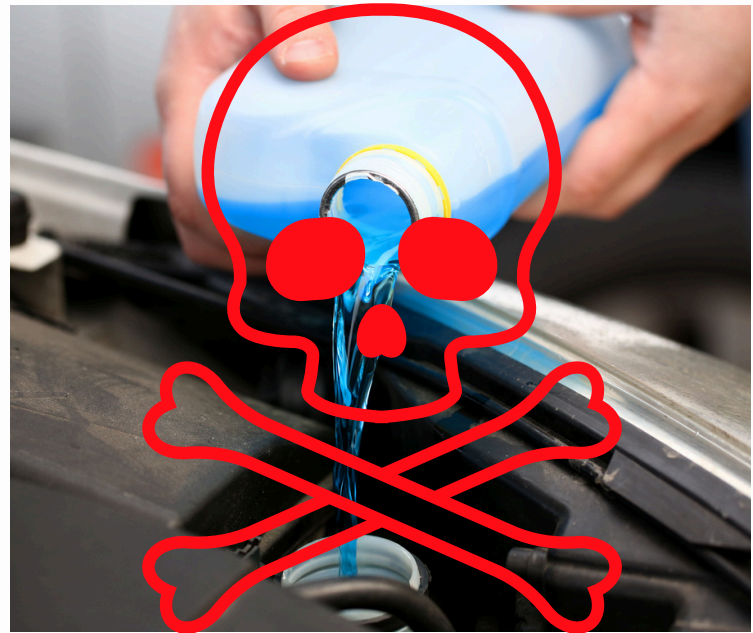

WARMER HOMES = MORE CHANCE OF RODENTS COMING IN FOR THE WARMTH! THIS POSES A DANGER TO OUR PETS AS WE USE POISONS TO PROTECT OUR HOMES. IF POSSIBLE USE HUMANE TRAPS WHERE THE POISON IS IN A BOX, AWAY FROM OUR FURRY FRIENDS, AND PLACE IN AREAS THAT THEY CAN NOT EASILY ACCESS TO PREVENT ANY ACCIDENTS OCCURRING.

MONITORING THEIR HEALTH, COAT AND SKIN DAILY, MEANS ANY CHANGES YOU CAN SEEK HELP IMMEDIATELY. REMEMBER, NOT ALL ILLNESSES REQUIRE VET TREATMENT, YOU CAN MANAGE THINGS YOURSELF AT HOME BUT IF IN DOUBT SEEK VET HELP!

WINTER = ANTIFREEZE I ALWAYS SAY ABOUT ANTIFREEZE, YEARLY! IT IS SWEET IN TASTE AND OUR DOGS FIND THIS VERY TASTY BUT IT IS DEADLY TO OUR FUR BABIES! IF YOU BELIEVE YOUR DOG HAS INGESTED ANTIFREEZE, SEEK VET CARE IMMEDIATELY!

BONFIRE NIGHT IS FAST APPROACHING! GET YOUR DOG USED TO A SAFE SPACE THAT THEY WONT BE BOTHERED BY ANYONE, PLAY FIREWORK SOUNDS AND GIVE TREATS AS PRAISE FOR NOT REACTING, IF YOUR DOG IS PETRIFIED I HAVE AN AFFILIATE LINK TO SOME FAB NATURAL CALMING TABLETS WHICH ACT FAST, WITHIN 1-2 HOURS! ASK ME FOR DETAILS
