Our Initiative To Protect “EARTH”

AIM & PURPOSE

Navigating pollution control laws can be complex and time-consuming. Entrepreneurs excel at creating quality products but often need expert guidance to ensure sustainable operations and compliance with environmental regulations.

EINC is dedicated to easing the burden of compliance, allowing business owners to focus on production. We provide end-to-end solutions, from setting up industrial units to implementing effective pollution control measures.

Why Choose us ?

- ★ Founded by Expertise,
- ★ Expert Team,
- ★ Comprehensive Services
- ★ Regulatory Expertise,
- ★ Sustainability focus.

OUR VISION

“ The environment is where we all meet; where all have a mutual interest; it is the one thing all of us share.”

Our Services

Anti-Smog Gun (ASG) Deployment at construction site and High Rise Building

Our Anti-Smog gun or dust suppression system mounted on 04-wheel Chassis/trolley with different through ranging between 20 mts to 100 mts. On High-Rise Buildings ASG are to be brackets fixed. **Anti-Smog Gun can be programmed to trigger when Air Quality parameters exceed predetermined thresholds.** Water tanks made from best brand of Mild Steel. Brass/ Steel nozzles fitted on Stainless Steel ring. Top branded motors (Crompton/Siemens/ Havells), panel (L&T/Schneider/ Havells) with exceptionally durable branded pump (CRI/Luby/ Crompton/ Havells) and fan having inbuilt warranty.

The Anti-Smog Gun employs state-of-the-art technology to combat particulate matter and dust emissions, a common challenge in construction projects. Highly efficient in neutralizing airborne pollutants, this system actively maintains air quality within acceptable limits.

✓ **PM2.5 AND PM10 REAL TIME AIR QUALITY MONITORING SENSORS**

Real-time tracking of particulate matter for construction projects. Continuous monitoring with automated data transfer to Pollution Control Board. Ensures compliance, eliminates manual reporting, and maintains air quality standards.

✓ **Environmental Consultancy Services for regulatory compliances of Pollution Control Laws:**

Our Environmental Consultancy Services offer expert guidance to navigate the complexities of environmental regulations, covering compliance auditing, permit applications, and sustainability strategy development. Provides tailored, project-specific advice backed by a team of seasoned environmental specialists. Simplifies regulatory processes, mitigates risks of non-compliance, and empowers your project with sustainable practices that align with long-term environmental goals

✓ **Video Fencing System**

Combines video surveillance with environmental monitoring. Real-time data integration with Dust Pollution Control Portal. Enhances compliance and site security.

Sewage/ Effluent Treatment Plant Installation

Fully automated STPs/ ETPs with remote monitoring. Optimized efficiency and real-time tracking. Ensures treated wastewater norms compliance.

Toxic Gas Detectors for STPs and IoT-Based Sensors for Parking Areas

Our advanced systems monitor hazardous gases (CO₂, H₂S, methane) in Sewage Treatment Plants (STPs) and key environmental parameters (CO, CO₂, NO_x, PM_{2.5}, PM₁₀, VOCs, H₂S, NH₃, humidity) in parking zones, ensuring comprehensive environmental oversight. Real-time alerts for swift hazard response in STPs, 24/7 connectivity to centralized servers.

Submission Of Fortnightly Report On DUST Pollution Control Self Assessment Portal, DPCC,

Six-Monthly Compliance Status Report

Comprehensive reports aligned with SEIAA guidelines. Thorough assessments by environmental engineers. Ensures compliance, operational efficiency, legal safeguards, and transparency.

Our Team

BL CHAWLA, PROPRIETOR, EINC
(Ex Sr. Env. Engineer, DPCC), Mob: 8800202368

Qualifications: B.E. Civil (MBM Engineering College, Jodhpur), M.E. (Delhi College of Engineering)

Experience: 34 years in environmental regulation, including 29 years at DPCC, 5+ years at CPCB, and 2+ years at IGI Airport.

Expertise: Pollution control (CETPs, STPs, waste-to-energy, C&D waste, thermal power plants), environmental litigation (Supreme Court, High Court, NGT, CAQM), and digital solutions (Green Delhi App, DPCC OCMMS Portal, DPCC Dust Portal).

ABHEY SINGH SONI, TECHNICAL ADVISER
(Ex. Addl Director, CPCB), Mob: 9312305450

Qualifications: B.E. Civil (Punjab Engineering College), M.Tech. Environmental Engineering.

Experience: 35 years at CPCB (1987–2022).

Expertise: Hazardous waste management, environmental standards for small-scale industries, non-ferrous metals, glass, ceramics, stone crushers, brick, and hot mix plants. Regulatory inspections and NGT affidavit filings.

SAGAR CHOUDHARY
Environmental Engineer, Mob: 8683888447

Qualifications: B.Tech. Civil (GITM College, MDU University, Rohtak). Experience: 3+ years at DPCC's EIA Cell and EINC.

Expertise: EIA reviews, consent management (CTE/CTO), dust pollution control (PM2.5/PM10 sensors, anti-smog guns, video fencing), STP/ETP monitoring, and compliance reporting for CAQM, CPCB, DPCC.

RAHUL SHARMA
Environmental Engineer, Mob: 9910618908

Qualifications: B.Tech. Electrical and Electronics (Guru Gobind Singh Indraprastha University, Delhi). Experience: 3+ years at DPCC's Consent and Waste Management Cells, plus practical experience at EINC. Expertise: Air quality monitoring (PM2.5/PM10 sensors), ASGs, video fencing, consent management, waste regulation, and on-ground compliance for industrial, healthcare, and infrastructure projects.

ENVIRONMENTAL INFORMATICS AND COMPLIANCES

**Envision sustainable projects
aligned with government
regulations. Let our expert
environmental consultancy
make it reality.**

**Book a consultation to align your
projects with sustainable solutions
and government regulations.**
