

Handy BBQ Rib Rack

Assembly & Use Instructions

Step 1 – Start Flat (As Shipped)

Rib rack arrives folded flat for compact storage
Place on a clean, flat surface before assembling

Step 2 – Remove Protective Caps

Remove the small rubber caps from both rod ends
Important: These are only for shipping
Discard caps before use

Step 3 – Raise One Side

Lift one side of the rack upward
Rotate until the support leg begins to stand

Step 4 – Raise the Opposite Side

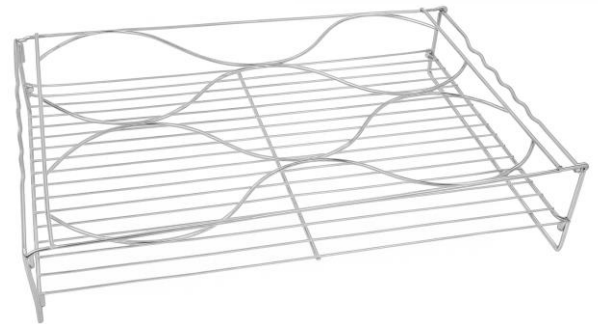

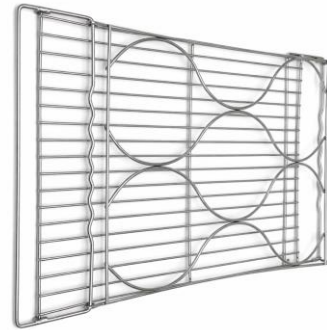

Lift the other side to match
Rack will begin forming the rib holding sections

Step 5 – Lock Into Place

Insert the exposed rod ends into the metal tubes on the side
Push firmly until fully seated
This locks the rack securely

Step 6 – Fully Assembled

Rack should now be stable and upright
Ready to hold rolled ribs, vertical chicken or vegetables

How to Use - For Ribs:

1. Do not Remove Skin from Ribs
2. Season both sides of Ribs with favorite seasoning, rub or sauce.
3. Roll Ribs with skin on the outside
4. Place Rolled Rib in Opening on your Handy BBQ Rib Rack
5. Cook As Normal

* Rolling ribs before placing in the rack helps lock in juices as fat renders, for tender, juicy ribs.

On the Grill - Place directly on grill grates

In the Oven - Place rack on a **cookie sheet or pan** to catches juices and prevents mess

Key Features

- Folds flat for storage and cleaning
- Durable stainless steel construction
- Dishwasher safe
- Can also be used for anything else on the grill, including vertical chickens and vegetables
