

SANCHO VILLA

TEXAS PSYCHEDELIC BLUES

In a war for the mind, you need more than just soldiers; you need alchemists.

Hailing from the concrete sprawl of North Texas, Sancho Villa is a power trio that refuses to pick a lane. Frontman Henry Welch, anchored by the seasoned rhythm section of Victor Garcia (Drums) and Scott Bruce (Bass), constructs a sound that is equal parts Texas hallucination, jazz-club smoke, and alternative rock grit.

Drawing inspiration from the haunted wells of Roky Erickson and the grooves of G. Love, they operate on a simple philosophy: Nothing is off limits. Whether they are turning a prison story into a funk anthem or sliding into a psychedelic jam, Sancho Villa doesn't just play a show—they incite a riot.
