

Decimus Oil Corp. (TSXV:WCSB)

Decimus Oil Corp. (TSXV:WCSB) is a Canadian oil and gas exploration company, focused on unlocking the hydrocarbon potential in the Mannville formation located in Southern Alberta. Targeting this geologically complex and economically significant Lower Cretaceous formation within the Western Canada Sedimentary Basin, Decimus leverages advanced exploration and completion techniques to tap into the region's substantial remaining reserves. Committed to innovative and sustainable resource development, Decimus aims to contribute to Canada's energy sector while navigating the challenges of the Mannville's diverse stratigraphic and reservoir characteristics.

Highlights

- Strategic Land Position of +26,000 gross / +16,000 net acres in one of Canada's newest oil plays.
- Achieved production growth of 384% (CAGR) since recapitalizing the Company in 2021.
- 2024 Reserve volume increased by +43% PDP, TP growth +162% & TPP growth +109%.
- Low base decline <10% paired with low-risk optimization opportunities plus new step-out low risk drilling targets could translate into +100% production growth, quick payouts (<1 year) and enhanced liquidity and free cash flow.
- Owned & operated Energy Infrastructure in Southern Alberta reduces operating costs while generates third party processing income
- +27% Insider Ownership aligned with shareholders to drive maximum returns.
