

SMART Elections: a nonpartisan election reform organization.

#CountTheVote is our groundbreaking program to monitor and protect the midterms.

Are you worried about the election?

Election Observation is used all over the world when elections are at risk.

Work with an organization that is cited by experts as one of the best. You can get trained to observe in about an hour & you can observe for about an hour. It does not have to be all day.

“There's .. one observing operation, SMART Elections, ... that's ... been better at paying attention to the full course of the election.”

- Legendary Elections Expert Dr. Doug Jones
