Dear Sir,

I am sending this correspondence to request the preservation of e-mail communications that may have been sent by one of your Assistant U.S. Attorneys. We have filed a Freedom of Information Act request for all emails sent to or from Lindsaylshort@gmail.com, Lindsay.l.short@gmail.com, and lindsayshort@gmail.com. We believe these accounts belong to Assistant U.S. Attorney Lindsay Short. Upon information and belief, Ms. Short may have been in communication with local and state election officials here in Arizona and possibly other organizations in her capacity as Assistant U.S. Attorney for the District of Arizona using these unsecure personal emails. The gmail addresses were obtained by analyzing Maricopa County Recorder Stephen Richer's calendar and other documents obtained under Arizona's Public Records Act.

As Ms. Short represents the Department of Justice in election related matters in Arizona, we believe any communications sent to or received by Ms. Short as regards Arizona or Maricopa County elections are subject to preservation under the Federal Records Act, 44 U.S.C. § 3101 *et seq.*, and disclosure pursuant to the Freedom of Information Act, 5 U.S.C. § 552 *et seq.* As you know, federal government employees cannot evade the duty to preserve official communications by using personal email accounts. This correspondence is intended to prompt the preservation of these communications, if they have not already been preserved, so they may be obtained by the general public and media for review, or should the Department of Justice raise an exception to disclosure properly litigated in a court of law. Thank you for your attention to this matter.

Sincerely,

We The People AZ Alliance
