

PIECES OF EIGHT - PROSTATE CANCER SURVIVOR'S JOURNEYS

Forty-three years ago, eight men joined the Alpha Phi Alpha Fraternity, Inc, Beta Epsilon chapter, with a common interest and journey to be servants to all mankind.

They are known as the Pieces of 8 (Po8). Although they are still serving all mankind through community service around the country, today half of those pieces are on another journey as prostate cancer survivors.

A man is diagnosed with prostate cancer every 2 minutes. Will you or a loved one be next?

All men and their spouses/partners, come hear a community service message from those who have been on their survivor's journey. And those fighting for their lives while stressing the importance of early detection through PSA screening.

Registration: Seating will be limited and you must register to attend through the link or QR code below:
