COLLAGEN ACTIVATION PLAN

A treatment enhancement
skincare plan

Improve results
by up to 50%*

*50% improvement in avg. wrinkle reduction 28 days after fractional laser treatment, when treatment with post-treatment skincare was compared to treatment without post-treatment skincare.³

The Collagen Activation Plan is a home-use skincare regime designed specifically for skin undergoing professional skin rejuvenation treatments.

The core technology in your programme is SCA® PRO growth factor technology. The result of years of research, SCA® PRO stimulates the production of collagen, elastin and hyaluronic acid in your skin to leave it smoother and plumper.

It's clinically proven to:

- Reduce downtime post-procedure¹
- Accelerate skin recovery^{2,3}
- Enhance treatment results^{2,3}

Your skin expert will use products featuring SCA® PRO during your in-clinic treatment to maximise infusion and calm the skin.

YOUR PRODUCTS

Regenerating Ampoules

High concentration SCA® PRO growth factor technology combined with antioxidants and hydrators.

Replenishing Cream

Immediate and long-lasting hydration combined with SCA® PRO growth factor technology.

HOW TO USE:

☀ AM

Apply half of one Regeneration Ampoule to cleansed skin. Pat the product in, pulling excess product down to the neck.

Apply the cap to the ampoule and keep the remaining serum for the evening.

Once absorbed, apply a small amount of the Replenishing Cream and massage into the face and neck.

Once absorbed, apply high-level, broad-spectrum sun protection.

🌙 PM

Apply the second half of the Regeneration Ampoule to cleansed skin. Pat the product in, pulling excess product down to the neck.

Once absorbed, apply a small amount of the Replenishing Cream and massage into the face and neck.

MOISTURE FIRM PLAN

A treatment enhancement
skincare plan

Hydrate & Firm
while strengthening
the skins barrier

The Moisture Firm Plan is a home-use skincare regime designed for those with skin lacking hydration and want to target signs of ageing, focusing on firming the face, neck, and eye area.

Formulated with SCA® PRO Growth Factors & our Moisture Complex, the regenerating properties of this regime will;

- Increase firmness and elasticity in the skin
- Reduce the appearance of fine lines & wrinkles
- Flood the skin with moisture, leaving it soft & glowing

YOUR PRODUCTS

Firming Serum

A light, fast-absorbing serum that repairs and regenerates the skin whilst boosting brightness, firmness and hydration.

Firming Eye Cream

A lightweight cream gel with regenerative and hydrating ingredients to brighten and firm the skin around the eyes.

Replenishing Cream

Immediate & long-lasting hydration combined with SCA® Pro Growth Factor technology.

HOW TO USE:

☀ AM

After cleansing, apply 2-3 pumps of the firming serum to the face and neck. Once absorbed, apply half a pump of the Firming Eye Cream around the eye bone, gently patting using your ring finger.

Apply a small amount of the Replenishing Cream and massage into the face & neck. Follow this with a broad-spectrum SPF.

🌙 PM

After cleansing, apply 2-3 pumps of the firming serum to the face and neck. Once absorbed, apply half a pump of the Firming Eye Cream around the eye bone, gently patting using your ring finger.

Apply a small amount of the Replenishing Cream and massage into the face & neck.

COMPLEXION PERFECTOR PLAN

A treatment enhancement
skincare plan

Brighter skin
in as little as
15 days¹

The Complexion Perfector Plan is a home-use skincare regime designed for those with uneven skin tone, textural issues and skin lacking in radiance. This plan is the perfect regime to use prior to a special occasion for a glowing complexion.

Combining the revitalising properties of 15% stabilised Vitamin C with the power of 20% SCA® Pro & AHA complex, you will see significant improvements in;

- The radiance of your skin
- The appearance of fine lines and wrinkles¹
- Skin texture & tone

YOUR PRODUCTS

Brightening Ampoules

High concentration Vitamin C & SCA® Pro Growth Factors to brighten & kick-start your natural production of collagen.

Radiance Gel

A cocktail of protective and brightening antioxidants, plus regenerative Growth Factors that work at a dermal level to improve the skin's structure.

Retexturising Serum

High concentration of AHA and additional skin hydrators for maximum exfoliation with minimal irritation.

HOW TO USE:

☀ AM

After cleansing, apply half of one Brightening Ampoule to the skin, patting the product in & pulling excess product down to the neck.

Apply the cap to the ampoule to save the remaining serum for the evening.

Once absorbed, apply 2-3 pumps of the Radiance Gel to the face & neck followed by a broad-spectrum SPF.

🌙 PM

Apply the remaining half of your Brightening Ampoule to the face & neck followed by 2-3 pumps of the Radiance Gel.

Twice weekly, apply 2-3 pumps of the Retexturising Serum to cleansed skin & allow to absorb for 2 minutes prior to applying the other half of your Brightening Ampoule. You may experience a mild tingling sensation after the first few applications. Follow this with 2-3 pumps of the Radiance Gel.

PIGMENT CONTROL PLAN

A skincare plan designed to
enhance your treatment results

A three-step
approach to pigment
control management

The ALLSKIN | MED Pigment Control Plan is a three-step approach to controlling pigmentation after in-clinic treatments.

The plan is expertly designed to be used alongside ablative or energy-based device treatments, such as IPL, laser, peels and microneedling. By following the plan, you will greatly reduce the risk of PIH while enhancing and prolonging the treatment results for pigmentation.¹

This treatment plan will:

- Correct and prevent sun-related pigmentation
- Reduce the risk of PIH
- Enhance the results of pigmentation related treatments whilst boosting hydration & reducing irritation.
- Create a brighter, more uniform skin tone.

YOUR PRODUCTS

Pigment Control Capsules

An innovative food supplement scientifically proven to correct and prevent pigmentation, as well as reducing the risk of PIH and enhancing the skin's brightness.

Pigment Control Serum

A luxurious, triple-action serum that provides gentle exfoliation, hydration and a lightening complex, creating a fresh and bright complexion whilst protecting against pigmentation.

Heliocare 360° Pigment Solution Fluid

Also from Cantabria Labs, a high-level, broad-spectrum SPF that boosts skin health whilst helping to reduce the appearance of existing pigmentation and prevent the formation of new pigmentation.

HOW TO USE:

☀ AM

After cleansing, apply 2-3 pumps of the the Pigment Control Serum, avoiding the area around the eyes. Allow to absorb and then follow with moisturiser.

Apply two full fingers lengths of the Heliocare 360° Pigment Solution Fluid, ensuring that you apply product evenly, up to the hairline and around the eye area.

🌙 PM

After cleansing, apply 2-3 pumps of the the Pigment Control Serum, avoiding the area around the eyes. Allow to absorb and then follow with moisturiser.

Pigment Control Capsules

☀ AM

1x Capsule per day for those looking to prevent pigmentation and even out and brighten skin tone.

☀ 🌙 AM & PM

2x Capsules per day for those looking to prevent pigmentation during a course of aesthetic skin treatments or times of increased sun exposure.
