Every 3.6 Seconds Someone Dies Of Starvation. 75% Are Children. New Technologies And This Action Plan Will Solve World Hunger.

NOTE: Preview and download this Action Plan at **MarketingConsultantsGroup.com**.

Here's the **Action Plan**. Teach these new technologies, solve world's hunger problem.

1. Provide **Aquaponic/Hydroponic Teaching Systems**. Place them in schools. Students will learn to breed fish, grow plants and pass on **Aquaponic/Hydroponic** technologies to others around the world.
2. Provide the world's teachers, schools, libraries with downloadable **Aquaponic/Hydroponic** teaching materials to start and maintain school, home-based, community, and commercial feeding systems.
3. Utilize financial loan and business training programs available worldwide via non-profit organizations such as Kiva.Org to finance **Aquaponic/Hydroponic Teaching Systems**.
4. Track progress of teaching programs and share results, successes on social media.

This Back To The Roots "Water Garden" for a classroom or home teaches students Aquaponics and Hydroponics, technologies for raising fish and growing plants. Available at HomeDepot.com \$50.00. <https://www.homedepot.com/p/Back-to-the-Roots-Premium-Acrylic-Water-Garden-Fish-Tank-That-Grows-Food-32000/300700383>. Also Amazon.com, BackToTheRoots.com. See Page 2.

BACK TO THE ROOTS

BackToTheRoots.com

INCLUDES EVERYTHING YOU NEED TO GET STARTED:

Organic Microgreen Seeds
Fast-growing and nutritious, these greens are perfect starter crops to get your aquaponics system up and running!

D-Klor and Zym-Bac
D-Klor removes chlorine from the water and enhances your fish's natural protective slime coating, while Zym-Bac kickstarts nutrient cycling to maintain healthy ammonia and nitrite levels for your fish.

Growstones
The perfect growing medium for your plants to take root and access the nutrient-rich water flowing through your ecosystem.

Fish Food and Coupon
This food contains the necessary proteins, vitamins, and dietary supplements for your fish. Plus, a coupon for \$3 off a beta fish at your local Petco!

THE SELF-CLEANING CYCLE AQUAPONIC ECOSYSTEM

The Water Garden is not your average fish bowl. While regular tanks require weekly water changes to keep your fish happy and healthy, the Water Garden uses an aquaponic self-cleaning cycle, so you don't need to clean the tank as often!

Your fish produces nutrient-rich waste. In regular aquariums, that waste builds up and becomes harmful to your fish.

In the Water Garden, the plants clean the water by continually taking up nutrients from the waste as their food to grow.

The clean, filtered water drops back down to your fish!

EXPERIENCE THE MAGIC OF AQUAPONICS

For thousands of years, farmers all over the world have used aquaponic growing systems (raising fish & plants together) as a sustainable & efficient way to grow food. Aquaponics can use 90% less water than traditional farming!

Now, you can bring the magic of aquaponics inside with the Water Garden — this easy & fun closed-loop ecosystem is perfect for any home or classroom! Just feed your beta fish, and watch the plants on top start to grow within days — all without any soil!

About this item

- **YEAR ROUND WATER GARDEN:** The Back to the Roots Water Garden Duo allows you to grow a succulent or houseplant garden all year round and comes with everything you need to get started - no green thumb or big backyard needed.
- **CONVENIENT AND EASY:** Harvest organic microgreens from your aquarium in just 10 days; Your Water Garden becomes a self-cleaning fish tank that also grows fresh food up top; The fish waste fertilizes the plants on top and the plants clean the water
- **THE PERFECT LIVING HOME DECOR OR GIFT:** Each Back to the Roots Water Garden Duo comes with a free STEM curriculum on aquaponic and hydroponic systems to encourage your kids to learn more about it; This award-winning ecosystem is also the perfect gift.
- **COMPLETE AQUATIC ECOSYSTEM KIT:** This DIY aquaponic fish tank kit is fully equipped with everything you need to get started - radish and wheatgrass seeds, water conditioner, a growing medium for your seeds to take root, water dechlorinator, fish food, and even a fish coupon
- **MADE IN THE USA:** Back to the Roots indoor gardening kits are crafted with care in the USA. For any concerns with your kit's performance, please contact us for assistance. Refill kits are also available
