

Clan Cameron Northeast Chapter

Clan Cameron Association of North America Membership Application

Membership applications are encouraged from all with an interest in supporting Clan Cameron.

We welcome Members with the surname of Cameron, or of a sept of Clan Cameron; and those whose mother or grandmother was a Cameron, or of a sept of Clan Cameron.

Because the Clan Cameron Association favors a liberal policy towards membership of the Clan as those who are "tenuous" but keen are often the most proactive and productive and if they have chosen Clan Cameron then we would be happy to accept them. In days gone past people took the name Cameron for all sorts of reasons - protection for example - so we would not be changing from that original ethos. As such, Associate Membership is also offered for those who wish to support Clan Cameron.

The society's mission is to provide and encourage:

The study and preservation of the culture of Clan Cameron and the Highland Clans and their heritage including dance, art, music language, folklore and history.

First Name
