Message from President Jim Andrews

2/22/2021

Punxsutawney Phil certainly knew what he was talking about this year. Finding a day to fly has been a challenge. But my workshop has been very productive during this time! Now is a good time to go over all your planes with an eye towards safety. Check for structural damage, hinges, pushrods, and connectors. Test your servos, switches, and batteries.

I have 3 planes that were donated to us by our friends at the South Park club, S.P.A.R.K.S. All three are trainer type glow planes. I have been going over them to get them flight ready. Each is complete with engine and servos and just needs a receiver and receiver battery. They are a Right Flyer 40T, a Sig Kadet Mark II, and a Great Planes Trainer Twenty. Ideally these should go to our members that would like to try a glow plane after flying electrics, or new members that could use a plane like these. I'll be bringing them to the field for trim flights and engine testing when weather permits. They are all balsa planes. These planes will be given free to our members. So, if you are interested contact me.

Three of our long time members pictured below have passed away recently. Dick Schmitz, Bob Haden, and just this morning we received word that Ron Gade has passed. They will be missed.

Our next meeting is March 6, Saturday, at Noon, at the field, weather permitting. Hope to see you there.

Keep texting or emailing pictures (*any size or format*) to me and any other RC related events, notices, interesting websites, or RC *stuff you want to sell*. (Members have been very successful in selling their overstock!) You can also bring photos to the monthly meeting. I will *either* put them in the Newsletter, on Facebook, in the "Live Calendar", or out in a special email.
