Who Are We?

Our Story

After about 20 years in serving big names, we decided to widen our range. Now, we share our passion by helping more partners. Our ramp up process is designed to empower you.

Why Us?

Business mentors are key—that's why when it comes to client selection, we're choosy. We want to give you the time and guidance you deserve.

About Us

Experience You Can Count On

Since 2001, our consultants started the journey of providing special services to our special partners. Our agile methodology is based on designing customized solutions for each partner, because we believe that the added value comes as a result of deep understanding of the needs and proper treatment on the pain areas, then move forward towards developing innovative solutions, using all available strengths our partners have, empowering them with the needed tools to gain it if they don't have.

Need More?

Our ramp up process is designed to empower your team and outfit them with the tools they need to succeed. Talk to us today about how we can support your growth, maximize your turnover and put you on a solid track to success and profit.

Top Management Consultations

When it comes to lead a big entity, the way you tackle your business should be special, exactly like the specialty your role has, ready-made solutions do not work here, you need to be insightful and able to design innovative solutions, that's what makes you really unique and put you ahead of your competitors. Our part here is to guide you through this journey and help you to design your future success, when needed, we offer also implementation services to help completing your success process successfully

Talent Acquisition Consultations

Strategies and plans will lead to nothing if you don't have those professionals who can lead the success, having superior human resources helps even to overcome all barriers and fine tuning your plans along the way. We help you invest in the right leaders by providing you with high level executive candidates for your important vacancies.

Business Process Redesign

Success is a comprehensive process with different aspects. Having the best work flow possible with smooth and effective information flow, linked with applicable KPIs and decision making tools, are some examples of how we can rebuild and empower your internal processes and bridge its gabs to reach that level of efficiency you need to achieve your goals.

Designing Policies & Procedures

Transferring the practices into written policies and procedures is more than regulatory requirement, it is very important to ensure same understanding and proper implementation among whole entity, it will eliminate the conflicts and boost the productivity, beside allowing the entity to spread its culture between all staff in systematic manner. We offer to design or develop the whole policies and procedures for your business, considering balancing between risk-based and facilitation methodologies.

Corporate Governance Consultations

Shareholders' dispute or misuse of power are two examples of those internal risks that may disrupt your business or even get it worse, governance is the proper way to mitigate such risks and shift the decision making process to a balanced level where rights, responsibilities and authorities are clear and agreed upon. We can develop your governance policies to comply with regulations and keep a dynamic governing system at the same time.

Digital Transformation Consultations

Live in future by starting your digital transformation today. Whatever is your business type, it is for sure that moving today to the new technology will boost your productivity and create significant success. In this VUCA world, soon there will be no place for entities without artificial intelligence or solid online services.

Take the decision today and let us provide you with all what you need to do it smart.

HR Outsourcing Services

Whether you are a big or start-up company, get the advantage to focus more on your core functions, while we take care about your support functions, like accounting, IT, HR & Admin.

Talk to us to see how we can help you in this, saving your money and efforts to focus more on your business innovation.

Financial consulting and bankruptcy services

In the world of finance and business, your success cannot continue without an intelligent financial strategy and an effective financial structure. Starting with designing a financial operations structure according to the latest accounting standards, and building a financial policies and authorities, up to developing a mechanism to grab investment opportunities, and ending with having mechanisms to improve the financial position, Tubseer offers you the insight into the best solutions to overcome all financial challenges.
