Why VALKERIE™ Outpaces the Competition:

A One-Page Comparison

Published by CogniMind AI — Where Intelligence Meets Defense™

In a world where cybersecurity and compliance collide daily, most GRC platforms still rely on outdated methods: static checklists, delayed visibility, and limited integration with real-time security tools. VALKERIE™ was built to fix that.

We created VALKERIE™ to serve as an intelligent bridge between live cyber telemetry and compliance frameworks like CMMC, NIST, ISO 27001, HIPAA and SOC 2. Designed for modern digital enterprises, MSPs, and government contractors, VALKERIE™ doesn't just track compliance — it *thinks*, *learns*, and *acts*.
