

Evaluation of Student Learning

2024-2025

The Standards and Procedures that determine how the student’s learning will be evaluated are revised every year. You will find general information concerning the evaluation and reporting of your child’s progress and the more detailed breakdown of results for each subject. This information is complimentary to the Course Outline made available by the teachers at the beginning of the year.

Report Card Information and communication

There are 4 official communications in the school year.

Official Communications	
Interim Report	On October 15th, you received an Interim Report which included comments on your child’s learning and behavior.
Term 1 Report Card	The Term 1 Report Card will be issued on November 20 and the results are worth 20% of the school year.
Term 2 Report Card	The Term 2 Report Card will be issued on February 20 and the results are worth 20% of the school year.
Term 3 Report Card	The Term 3 Report Card will be issued by July 3, but the last day to issue the report card is July 10 th .

Comments on Learning (by Subject)

The report card will include a section for general teacher comments for each subject area. The comments will deal with the student’s strengths, challenges and progress.

Cross Curricular Competencies

The report cards will also include comments on the cross-curricular competencies at the end of [Term 1](#) and [Term 3](#). The competency evaluated will be determined by the school team.

Parent-Teacher meetings after Term 1 and Term 2

These are two more opportunities for parents to receive feedback on the progress of their child with the classroom teachers. The details on how to sign up will be sent out a few weeks prior to those evening meetings.

- February 20, 2025

Mozaik Portail

Some of the assignment results are published on Mozaik Portail. The posted results are meant to give you an idea of how your child is doing on individual assignments, quizzes, and tests. There are some important points to consider:

- Please do not attempt to calculate an overall grade since the weighting of the results is subject to change. For example, a quiz out of ten points does not necessarily represent ten percent of the term mark.
- The professional judgment of the teachers. For example, a teacher may decide to use the best four out of five quiz marks.

Delay of the marking: Note that depending on the nature and the complexity of the assignment, feedback and grades will be returned to students within a maximum of one month.

If you have any questions about the results posted on Mozaik or the academic progress of your child, you may contact the teacher for each course.

Students with Special Needs

Please note that some students are provided with an Individualized Education Plan (IEP) to meet their needs. Students in the regular program get adaptations as specified in their IEP.

Some students are in Pathway programs, such as the Work Oriented Training Path, CASP and Challenges. Their programs, including the evaluation and reporting procedures, may differ from those described in these pages. The Pathway teams develop IEPs that outline the individualized programs, strategies implemented as well as resource support measures.

According to the Basic School Regulations parents of students with special needs should get 10 communications per year on their child’s progress. Those 10 communications include:

- the official publications = 4
- the parent teacher meetings = 2
- the IEP meeting = at least 1
- any written communication or phone conversation with a teacher, resource teacher or SET (throughout the school year).

Exam sessions

As stated in our School Calendar and the Student Agenda, “evaluations take place throughout the school year” (p. 3). There are two exam sessions during the year. These exam sessions allow us to administer more substantial formal evaluations and Mandatory Uniform MEQ (Ministry of Education of Quebec) Exams.

Mid-year exams: Local exams from December 16 to December 20

End-of-year: Local, CQSB and Ministry of Education (MEQ) exams from the month of May to June 20

Note that the weighting of the MEQ will be confirmed later in the year. If there is a change, parents and students will be informed as soon as we receive the official information.

The detailed schedule will be sent at least 2 weeks before the exam session.

Absenteeism

If students miss an evaluation due to a valid absence such as illness, death of a relative, scheduled appointment, or school activity, they will be given the opportunity to make-up the evaluation according to the teacher’s availability. If students miss an evaluation for any other reason, they may be given a 0 for that evaluation.

Department-Specific information

On the following pages, you will find specific information regarding the regular program for each subject and level from secondary 1 to 5. Note that each subject may have more than one competency. *Each competency* has a different weighting. This is the same every term. These are indicated in the table below.
