STAINLESS STEEL SINKS

Our diverse array of stainless steel sink series presents a plethora of styles, each tailored to cater to your unique requirements. Every Pelican sink is accompanied by a Limited Lifetime Warranty, a testament to our commitment to quality and durability. Explore the following pages to unearth the ideal sink for your needs and experience firsthand why Pelican stainless steel sinks are the preferred choice for countless discerning individuals

T304 STAINLESS STEEL

18/8 chromium to nickel content
Strong, durable, and corrosion resistant

SATIN BRUSHED FINISH

Provides a glistening look and helps conceal any scratches or scuffs

SOUND DEADENING COATING

Adds an additional layer of sound absorption and a secure barrier to prevent condensation. It also helps maintain the temperature of water when the sink is filled.

ROUNDED CORNERS

Promotes easy cleaning

SOUND DEADENING PADS

Installed during the production process and strategically placed around the sides and bottom of the sink to reduce noise

LIMITED LIFETIME WARRANTY

APEX PRO GAUGE

STAINLESS STEEL SINKS

Within our Apex Pro Gauge Sinks, you'll discover timeless choices suitable for any setting. Offering a diverse range of styles and thicknesses, these sink selections are built to endure the trials of time with unwavering resilience.

UNDERMOUNT

Undermount refers to the sink sitting below the countertop. Many prefer undermount for its clean, seamless look. The sink is clamped to material from below the counter and a sealant is used between the sink and countertop to create a tight, water resistant seal.

TOP MOUNT

Top mount sinks are easier to install and work with the majority of counters. A custom hole is cut into the countertop and the sink suspends from the rims. Underneath, the sink is clamped into place to ensure sturdiness and a tight seal.

GAUGE

Our sinks are available in two gauges, 16G & 18G. The smaller the gauge number, the thicker the steel.

LOFT COLLECTION

LIMITED LIFETIME
WARRANTY

STAINLESS STEEL SINKS

Our Loft Collection sinks are expertly designed with generously deep bowls and precisely rounded 20° radius corners. These features not only provide a sharp, artisanal appearance but also do so without incurring the high expense often associated with handmade options.

RADIUS

The radius of the sink is measured on the inside of the sink, referring to the angle of the corners. The lower the radius, the sharper the corners.

GUNMETAL STEEL SINKS

We like to take a look on the dark side when it comes to contemporary kitchen design and a modern kitchen sink. Our Gunmetal sinks introduce an exhilarating, sophisticated, and visually striking element to your kitchen. It's no wonder that black has earned its place as a beloved choice among creative minds and design connoisseurs.

HOW DO THEY GET THEIR GUNMETAL COLOR?

Physical Vapor Deposition (PVD), an innovative technology that allows the deposition of a very fine and thin metal film on stainless steel sinks. The colored finish is applied as an outer layer making it incredibly tough and resistant to wearing, peeling, and scratching.

HOMESTEAD COLLECTION FIRECLAY SINKS

Formed from a blend of clay and a selection of minerals, our Fireclay sinks undergo a high-temperature kiln glazing process, yielding exceptionally robust ceramic fixtures. This non-porous glossy glaze presents exceptional resistance against stains, cracks, scratches, and chips. Moreover, the reversible front design offers you the flexibility to select the optimal configuration for your unique space.

PORCELAIN SINKS

The timeless elegance of our Pearl Series porcelain sinks shines through in their meticulous craftsmanship. Crafted from fine ceramic and coated with vitreous china, they're sealed with a lustrous enamel glaze, imparting a resplendent sheen. Each Pearl Series sink features an overflow drain for added convenience, and their seamlessly contoured edges make cleaning a breeze.
