WHAT WE DO:

The Animal Advocacy Committee of REACH at Cedar Creek Lake is a 501(c)3 non-profit committee which advocates for animal welfare in the Cedar Creek Lake community. Our mission is to keep pets in their homes. We focus on advocacy, education, and outreach to build a more compassionate community for both pets and their owners.

MICROCHIPPING:

Microchipping is a simple, safe, and effective way to ensure pets can be identified and returned to their owners if lost because 1 in 3 pets will go missing in their lifetime. Unlike collars or tags, microchips are permanent and can't be removed or lost. Keeping your contact information updated in the microchip registry is crucial for it to work effectively.

RESPONSIBLE PET OWNERSHIP:

Responsible pet ownership means providing your pets with proper nutrition, regular veterinary care, and a safe, loving home. It includes spaying or neutering to prevent overpopulation and ensuring pets get exercise, enrichment, and socialization. Additionally, owners should respect state and local pet ordinances.

SPAY AND NEUTERING YOUR PETS:

Spaying and neutering pets is essential for controlling pet overpopulation and reducing the number of homeless animals. These procedures also have health benefits, such as reducing the risk of certain cancers and behavioral issues. By spaying or neutering, pet owners contribute to a healthier, more responsible pet community.

FURRY FRIENDS FOOD BANK:

The Furry Friends Food Bank is a dedicated resource to support pet owners in the local community who are facing financial hardships and pet food insecurity. The pantry provides free pet food through local food pantries to ensure that pets are well-nourished and can remain with their families during difficult times.
