

Modern Shamanism

What is Shamanism? ... What is a Shaman?

- Shamanism is a natural path of beliefs & philosophical influences that relate to & create any chosen Reality ... It requires the blending of mind-body-spirit intentions with focused energy for effective creation ... It is the Harmony of the Mind-Body-Spirit Union.
- A Shaman is anyone who consciously influences his/her Realities with the Harmony of Mind-Body-Spirit Union ...
 - Mind imagines/thinks ...
 - Body builds/works ...
 - Spirit inspires/creates ...

This is how we create on 3-D Earth (& beyond) ... Do this consciously with Love.

The little space within the heart is as great as this vast universe. The heavens & the earth are there, & the sun, & the moon, & the stars; fire & lightning & winds are there; & all that now is & all that is not . . .
