• **Back Story**

"CHILDREN OF THE STARS" is part of EarthStar Music's New Age collection — a gentle, healing & meditative song that invites Our Consciousness to remember its eternal nature & Sacred Journey through the stars ... Though the title speaks of children, it does so in a spiritual sense – all of us on 3D Earth are children of God in the greater Galactic, Interdimensional & Universal Way ... Each of us has come to Earth, Now, to serve, share & bring forth the unique Light, Gifts & quiet Superpowers within us ... May we always open our Hearts as children with a fullness of curiosity & wonder ... We hope this song helps to awaken everyone on Planet Earth to the deeper truth of who we are & the Living Reality around us ... We are the "Children of the Stars," & this beautiful, Sacred Journey is still unfolding in daily miracles & Aloha/Love ... "God is us, God is we" ... See you on the playground!

Thank you for supporting this musical endeavor ... Song is available on major streaming platforms ... Aloha, Dale & Jeanne

"Children of the Stars" Lyrics

(Verse 1)

The Light within, the Light all around
In this Light, we are whole & forever bound
We are one with Him, we are One with Her
Living in our hearts, where all life occurs
Learning who we were, & who we are
Fulfilling a sacred role, Children of the Stars

(Chorus)

We are, the children from every star
Living on Earth, from near & far
Eternally moving, through many places
Living in harmony, building sacred spaces
Within, without, below & above
Children of the Stars, Emissaries of Love

(Verse 2)

From the Light we came, & there return
Life is eternal, to love & learn
God is within, He & She
God is us, God is we
Forever in the heart, the light will burn
Our wholeness, our soulful yearn

(Chorus)

We are, the children from every star
Living on Earth, from near & far
Eternally moving, through many places
Living in harmony, building sacred spaces
Within, without, below & above
Children of the Stars, Emissaries of Love

(Verse 3)

We, the children, who came from afar
Encourage you to shine, like the brightest star
Share your beauty, teach & heal
Let loose your inner light, bare & reveal
God made all of us, to be whole & true
Unique expressions ... God is You

(Chorus)

We are, the children from every star
Living on Earth, from near & far
Eternally moving, through many places
Living in harmony, building sacred spaces
Within, without, below & above
Children of the Stars, Emissaries of Love

(Outro)

We have come from, dimensional spaces
To be here on Earth, one of many sacred places
Search your heart, remember who we are
We are one ... We are Children of the Stars
Children of the Stars
