

WR-V Discontinued

Honda

Honda WR-V

Honda WR-V is basically a jacked up Jazz to make it an compact sub 4 meter SUV. WR-V just like the Jazz never took off in the Indian market. Unlike the jazz the WR-V is not offered in automatic variants also the WR-V is offered with a diesel engine. WR-V just like the Jazz lacked a very awaited facelift or even an all new generation update in India. Just like Jazz the WR-V was discontinued with the introduction of RDE norms.
