Kia Carnival

Kia Carnival is premium/luxury MPV that existed in a segment of its own. The closest rival you can think of was the Innova Crysta. The carnival is a long car stretching beyond 5m in length. It unlike other Kia and Hyundai cars got only one diesel engine option mated with a automatic gearbox.

Kia Carnival unfortunately never took off well in India due to the premium pricing for a Kia car. Due to lack of demand Kia took plugs of the Carnival in June of 2023
