## Tata Altroz

### Basics

Tata Altroz was launched during the pandemic but that didn't stop it from selling like hot cakes. The Altroz is the first car made on the Alfa-Arc platform which can also be converted to a electric skateboard. The Altroz was a revolution in design for Tata cars to a sporty and futuristic look. The Altroz despite strong competition from Maruti Suzuki's Baleno, is steady in its sales figures.
