GYC Spring 2021

We would like to thank everyone for their cooperation and understanding during these difficult times with COVID-19. We ask that you continue to follow the NH state guidelines and be respectful of others. As of now, the deck, grilling station, and entire lower level of the clubhouse are available for use. Masks are still required in the clubhouse. We anticipate a continuing relaxation of restrictions as the vaccination rate increases, and hoping to announce an annual meeting in the near future (meet 2nd half of June?). **Welcome back! Bring on a wonderful summer of 2021!** 🍉🍺🛶🚤

COMPLETED PROJECTS & UPDATES

A new refrigerator was donated by Clair & Mike Thibault to replace our failing one - Thank you!

The last of the lakeside windows on the clubhouse and apartment have been replaced, and the ancient shag carpet in the apartment was replaced with wood.

Nick and Jason jumped in the water last fall to perform a visual inspection of the dock pilings and structure. With the exception of a small area needing attention, everything looked to be in good shape.

Based upon the advice of our Arborist, a few large trees were removed or pruned last fall for safety reasons.

You will notice our neighbor removed all of the trees to the northeast of the dumpster and upper portion of the parking lot (none were on club property).

PLANNED PROJECTS

Replace wooden approach to C Dock, and replace flooring in one of the downstairs bathrooms.

There are no significant changes to our spending plans for 2021. The budget remains the same as it was in 2020.

OPEN ISSUES

We have limited parking space, and encountered some abuses last year. Please contact Andrea or Jason to pick up your annual sticker. For the enjoyment and fairness of all, cars without stickers or guest passes in the guest lot, are subject to towing.

REMINDERS

No boats or trailers are permitted on the property after May 15

Those who use the grill or deck are expected to clean it when done

Please place garbage in the dumpster. The bathrooms are for, ... you know, not for beer packaging or Dunkin donuts boxes 😊

For those who ship packages to the club address, please collect your packages promptly, and remember the club managers are NOT responsible for them
