

Feathercoons Cattery Application 2026

Date:

Name:

Address:

Email:

Phone:

Maine Coon kitten preference (please list names in order first choice, second choice, etc.). If no preference is made, that's ok too!

Found Feathercoons via please circle: Facebook Group, Google, Instagram, aFriend, Other

How many people are living in your household? If children reside in your home, please list the ages. Please explain if your children have experience with cats or not (so I can better place a kitten with you that has a suitable personality for your family)

Will the kitten be a gift for someone else?

Are you willing to let the breeder make recommendations as to which kitten would be best suited for your household?

Do you own your home or rent? If renting, how long have you lived in this residence? Are you willing to allow me to contact your landlord? If so, please provide a contact name and phone number.

Are you currently employed?

How many hours per day are you home?

Are you a student? (If so, what year?)

Have you ever owned a Maine Coon? Which cattery did you purchase it from?

What pets are in your home (type of pet, breed, age)?

Do the animals in your home have experience with cats?

Are your current pets up to date on all their vaccinations?

Are the cats in your home currently spayed or neutered?

If you currently own cats, are they allowed outdoors? If so, in what areas?

Have you ever had to rehome your cat? If so please share your experience.

Who is your vet currently and past? (Please list names and phone numbers).

Are you willing to let me speak with your veterinarian office regarding the care of your current and past pets?

If so, please provide the veterinary office name, address, and phone number?

What room or space will you have available for your Maine Coon kitten to be kept safely away from your other pets during the initial quarantine?

Are you willing to do a video conference to allow me to see your home where the kitten will live?

Are you willing to maintain active pet insurance for your kitten? Trupanion is recommended due to immediate congenital coverage, or you may provide proof of an equivalent plan with no waiting periods and equivalent coverage.

Do you plan to be home when first receiving your new kitten, at minimum three days, and preferably two weeks?

Will you have any travel plans in the first 3 months of your kitten coming home?

Who will care for the kitten if you travel *or* have an unexpected emergency?

Because every kitten has a unique temperament and needs, placement decisions are based on overall fit rather than first-come, first-served. Time at home, prior pet experience, household environment, and lifestyle are all considered to ensure the best lifelong match for both kitten and family. Therefore, approval of this application does not guarantee placement.

Please note that we prioritize applications that include photos of where your kitten will live. Please attach photos to your email when returning your application.

I certify the above information is accurate and complete to the best of my knowledge. I authorize the release of veterinarian information related to my current and past pets.
