

## ICAgile Certified Professional (ICP) - Agile Fundamentals Certification

Agile Fundamentals emphasizes starting with an Agile mindset, not a single methodology or framework.

### Start your journey from mindset to mastery

In order to succeed with agile approaches, teams and organizations should focus first on “being agile” as a foundation for success in “doing agile.” ICAgile's fundamentals learning outcomes develop into key concepts such as adaptive planning, value-driven development, team collaboration and frequent feedback for continuous improvement. They also cover the history of the agile movement, the Agile Manifesto, the Agile Principles, and some widely applied frameworks and practices. Course participants come away with a solid understanding of core concepts as they prepare to embark on their agile journey.

PROFESSIONAL:  
Agile Fundamentals

### This course is developed for

Since the ICAgile Certified Professional (ICP) is foundational and the gateway to all other ICAgile tracks, the ICP certification is appropriate for those new to the agile world, and for practitioners who recognize the need to focus on “being agile” in addition to “doing agile”. Workshop may be tailor-made to specific audiences and career levels, while still ensuring coverage of all learning outcomes.

### Agile Fundamentals

The ICP's learning outcomes focus on the Agile mindset, values, principles and foundational concepts. They are grounded in what it means to "be agile while doing agile" and achieve organizational agility without specific focus on any single agile methodology or framework (i.e. Scrum, kanban, XP, DSDM, SAFe, etc.)

### What you learn?

- Understand the history of the agile movement
- The distinctions among Agile values, principles, and practices
- Key aspects of value-driven development
- Adaptive planning techniques
- How to cultivate collaboration with customers, within organizations and within teams
- Gain the vocabulary to discuss the benefits of agile approaches
- How to avoid common pitfalls with fellow agile practitioners
- Understand the value of continuous feedback, learning, and adaptation for products, processes, teams, and organizations

### Who will benefit?

- Those new to agile world
- Those want to “be agile”
- Those want to get a solid understanding of core concept of agile
