**NEW RIVER VALLEY AIRPORT COMMISSION**

**ADVERTISING POLICY**

**Purpose and Application**

Entities periodically approach the New River Valley Airport Commission seeking to engage in advertising on the property of the New River Valley Airport. This document sets forth the policy of the Commission with respect to such advertising. This policy shall not be construed to limit or restrict the Commission’s ability to identify the New River Valley Airport’s facilities, services, or tenants, or to promote, market, or inform the public about the Airport.

The Commission considers advertising to be a means to generate revenue and to represent to advantage the Airport and the region it serves.

This advertising policy shall not be applicable to facility way-finding, informational or tenant identification signs.
Advertisement Within the Terminal Building

Within the New River Valley Airport’s Terminal Building, all advertising shall be displayed within public and common use space designated for that purpose by the Commission and is subject to a contractual agreement with the Commission. This includes the placement of signs, banners, and brochures.

General informative advertising, such as the listing of items for sale or general services offered, shall be posted only at the public display board located in the kitchen area of the terminal building. No charge is assessed for use of the public display board and no contract is required. However, such advertising may be removed at any time, and its display is subject to the discretion of the airport manager.

Advertisement on Airport Property Other than the Terminal Building

All advertisements proposed for locations at the Airport other than the terminal building, wherever and in whatever manner placed, are subject to the written consent and approval of the Commission before installation.

Prohibitions

Advertisements containing flashing messages or which are
illuminated by strobe or laser lighting, or other means which may be a hazard to aircraft or a distraction to patrons, are prohibited. The New River Valley Airport Commission assumes no responsibility for the content of advertisements, but it reserves the right to decline advertisements inconsistent with the professional tone of the Airport facility.

**Removal**

If the Commission determines that it is necessary or appropriate that a paid advertisement be removed before the expiration of the current agreement respecting its display, the Commission shall provide for pro rata reimbursement to the advertiser for the unexpired balance of the agreement term following the removal of the display. This payment shall be the sole remedy of the advertiser, in the event of the removal of its advertisement before the expiration of its agreement.

**Temporary Advertising Signs**

Temporary signs that may be considered advertising in nature may be used by the Commission and Airport tenant during construction periods to identify projects, work sites or other information, or to display information pertaining to a special event at the Airport.

Other temporary signs that may be considered advertising in nature may be allowed subject to prior Commission review and
approval.

**General**

Notwithstanding the specific terms and guidance set out in this policy, the Commission reserves the right to refuse any advertisement in any form, at any time, in any location, and for any reason, without the necessity of expressing a reason for the refusal.

**Modification**

This policy may be modified by the Commission from time to time.
The rates identified in this schedule may be modified by the New River Valley Airport Commission from time to time. The applicable rate shall be specified by written agreement with the advertiser.
