HIT

DOUGLAS COUNTY, CO

Enjoy instant access to fresh meals, snacks, and beverages without the wait. Enjoy a smooth, frustration-free checkout experience—no buttons, no delays, just seamless satisfaction.

Don't Miss Out!

LIMITED Number of Machines Available

Why SmartMarts™

Join the growing number of companies who are replacing their traditional vending machines with cutting-edge technology offering seamless snack, drink and meal shopping experiences.

More and Better Options

Your employees and customers can still have the old favorites but will now have:

- Healthier snacks and drinks – Think Trader Joes and Whole Foods
- Chilled products like yogurt and meal replacement kits with various combinations of fruits, nuts, cheese and meats
- Fresh items like salads and sandwiches. Get a hearty and nutritious lunch right on site!

Say goodbye to vending machine coils. We'll be carrying products that a vending machine could never offer.

New and Better Technology

Our SmartMarts use advanced AI vision technology to track inventory and transactions in real-time, allowing customers to grab items and walk away without the need for scanning or checkout lines. This frictionless shopping experience is the future of unattended retail and this equipment is now available in our area.

Select and Evaluate Products – Before You Buy Them

Unlike traditional vending machines, which require customers to select and pay for items before dispensing, our SmartMarts allow you to pick up and evaluate items before you decide to buy them. Is it cold? Is it fresh? Do you have nutritional concerns – is it gluten free? How many calories does it have? Americans are becoming more discerning food shoppers and our SmartMarts cater to their needs.

**Say goodbye
to your outdated vending
machines and say hello to SmartMarts
– the future of workplace convenience.**
